Terror And Taboo:

Terror and Taboo Joseba Zulaika, William Douglass, 2016-04-22 Terror and Taboo is about the mythology of terrorism it is an exploration of the ways we talk about terrorism It offers incontestable evidence to support the idea that we give power to terrorism by the way we write and talk about it According to Zulaika and Douglass we make terrorism worse by the way we represent it in the media and in everyday conversation Through their examination of terrorism they propose to remove the taboos surrounding terrorism Terror and Taboo is full of examples to ground the authors premise ranging from specific examples such as tendency to talk more about where Timothy McVeigh shopped for weapons than about the international traffic in arms by legitimate nations to more theoretical interpretations that will be familiar to readers of cultural studies books

Terrorism Joseba Zulaika, 2009-12-15 In counterterrorism circles the standard response to questions about the possibility of future attacks is the terse one liner Not if but when This mantra supposedly conveys a realistic approach to the problem but as Joseba Zulaika argues in Terrorism it functions as a self fulfilling prophecy By distorting reality to fit their own worldview the architects of the War on Terror prompt the behavior they seek to prevent a twisted logic that has already played out horrifically in Iraq In short Zulaika contends counterterrorism has become pivotal in promoting terrorism Exploring the blind spots of counterterrorist doctrine Zulaika takes readers on a remarkable intellectual journey He contrasts the psychological insight of Truman Capote's In Cold Blood with The 9 11 Commission Report plumbs the mindset of terrorists in works by Orianna Fallaci and Jean Genet maps the continuities between the cold war and the fight against terrorism and analyzes the case of a Basque terrorist who tried to return to civilian life Zulaika's argument is powerful inventive and rich with insights and ideas that provide a new and sophisticated perspective on the War on Terror

Unspeakable Peter C. Herman, 2019-09-17 Unspeakable Literature and Terrorism from the Gunpowder Plot to 9 11 explores the representation of terrorism in plays novels and films across the centuries Time and time again writers and filmmakers including William Shakespeare Joseph Conrad Henry James Gillo Pontecorvo Don DeLillo John Updike and Steven Spielberg refer to terrorist acts as beyond comprehension a deed without a name but they do not stop there Instead of creating works that respond to terrorism by providing comforting narratives reassuring audiences and readers of their moral superiority and the perfidy of the terrorists these writers and filmmakers confront the unspeakable by attempting to see the world from the terrorist's perspective and by examining the roots of terrorist violence

Monumental Space in the Post-Imperial Novel Rita Sakr, 2011-12-01 There has been a proliferation in recent scholarship of studies of monuments and their histories and of theoretical positions that shed light on aspects of their meanings However just as monuments mark their territory by attempting to ensure the existence of boundaries so these discourses set a boundary between their authority as platforms on which the interpretation of monumental space occurs and in this respect the different authority of the novel This study crosses this boundary by means of dynamic interdisciplinary movements between selected novels by James Joyce

Yukio Mishima Rashid al Daif and Orhan Pamuk on the one hand and various theoretical perspectives history and cultural geography on the other Through the specific choice of literary texts that represent monumental space in a typical post imperial geopolitical contexts Monumental Space and the Post Imperial Novel brings into question many postcolonial paradigms Sakr establishes a two way interpretive methodology between theory history and cultural geography and the novel that serves as the groundwork for innovative interdisciplinary readings of monumental space Fear Joanna

The Dangers of Dissent Ivan Greenberg, 2010-10-14 While most studies of the FBI focus on the long tenure of Director J Edgar Hoover 1924-1972 *The Dangers of Dissent* shifts the ground to the recent past The book examines FBI practices in the domestic security field through the prism of political policing The monitoring of dissent is exposed as are the Bureau's controversial counterintelligence operations designed to disrupt political activity This book reveals that attacks on civil liberties focus on a wide range of domestic critics on both the Left and the Right This book traces the evolution of FBI spying from 1965 to the present through the eyes of those under investigation as well as through numerous FBI documents never used before in scholarly writing that were recently declassified using the Freedom of Information Act or released during litigation *Greenberg v FBI* Ivan Greenberg considers the diverse ways that government spying has crossed the line between legal intelligence gathering to criminal action While a number of studies focus on government policies under George W Bush's War on Terror Greenberg is one of the few to situate the primary role of the FBI as it shaped and was reshaped by the historical context of the new American Surveillance Society

The Cultural Imaginary of Terrorism in Public Discourse, Literature, and Film Michael Frank, 2017-06-14 This study investigates the overlaps between political discourse and literary and cinematic fiction arguing that both are informed by and contribute to the cultural imaginary of terrorism Whenever mass mediated acts of terrorism occur they tend to trigger a proliferation of threat scenarios not only in the realm of literature and film but also in the statements of policymakers security experts and journalists In the process the discursive boundary between the factual and the speculative can become difficult to discern To elucidate this phenomenon this book proposes that terror is a halfway house between the real and the imaginary For what characterizes terrorism is less the single act of violence than it is the fact that this act is perceived to be the beginning or part of a potential series and that further acts are expected to occur As turn of the century writers such as Stevenson and

Conrad were the first to point out this gives terror a fantastical dimension a fact reinforced by the clandestine nature of both terrorist and counter terrorist operations Supported by contextual readings of selected texts and films from *The Dynamiter* and *The Secret Agent* through late Victorian science fiction to post 9 11 novels and cinema this study explores the complex interplay between actual incidents of political violence the surrounding discourse and fictional engagement with the issue to show how terrorism becomes an object of fantasy Drawing on research from a variety of disciplines *The Cultural Imaginary of Terrorism* will be a valuable resource for those with interests in the areas of Literature and Film Terrorism Studies Peace and Conflict Studies Trauma Studies and Cultural Studies

Translation and Violent Conflict Moira Inghilleri, Sue-Ann Harding, 2010-01-30 First Published in 2010 Translators and interpreters are frequently found at the centre of attempts to wage war or negotiate peace between opposing factions Translation and interpreting also serve a vital function in communicating a conflict locally and globally as interested parties attempt to legitimize their actions appeal for assistance and enlist support for their cause and the condemnation of their stated enemy The unavoidable independent exercises of judgement that interpreters and translators make through their participation in or re narration of a conflict and the decisions that go with them provide clear and strong evidence for the lead role in the construction of meanings and identities that interpreters and translators assume in situations of conflict irrespective of their historical or geopolitical setting This special issue of *The Translator* explores the role of translators and interpreters in a number of conflicts from the 20th century to the present Drawing on fictional and non fictional texts legal and peacekeeping settings and reports from war zones contributors to this volume explore the overlapping themes of mediation agency and ethics in relation to translators and interpreters as they negotiate the political social cultural linguistic and ethical factors that converge often dangerously in situations of armed conflict

Disciplining Terror Lisa Stampnitzky, 2013-04-18 Since 9 11 we have been told that terrorists are pathological evildoers beyond our comprehension Before the 1970s however hijackings assassinations and other acts we now call terrorism were considered the work of rational strategic actors *Disciplining Terror* examines how political violence became terrorism and how this transformation ultimately led to the current war on terror Drawing upon archival research and interviews with terrorism experts Lisa Stampnitzky traces the political and academic struggles through which experts made terrorism and terrorism made experts She argues that the expert discourse on

terrorism operates at the boundary itself increasingly contested between science and politics and between academic expertise and the state Despite terrorism now being central to contemporary political discourse there have been few empirical studies of terrorism experts This book investigates how the concept of terrorism has been developed and used over recent decades
