Criminal Profiling Today criminal profiling is no longer viewed as some secretive mysterious technique that police from the United States exclusively indulge in when seeking to solve high profile aberrant forms of crime Although popular culture representations of criminal profiling still mostly favor such depictions by emphasizing this context the reality is that individuals from a range of occupational and disciplinary backgrounds from around the world are involved in the practice loosely referred to as criminal profiling Different nomenclature is adopted from time to time to describe essentially the same practice such as offender profiling psychological profiling personality profiling and crime analysis and indeed different techniques are often employed but nonetheless as an endeavor profiling has expanded both in application and in popularity across the world Criminal profiling has evolved chiefly because researchers and commentators from around the globe have spent many years examining the perpetrators of serious crimes such as murder rape and arson In particular they have concentrated their efforts on studying the motivations and actions of violent offenders while seeking to document the experiences of both the victims and the perpetrators of crime Many have also sought to assess the input of investigative experience employed in criminal investigations and the influence of expert witnesses on jury decisions and examined at length the assessment and treatment of the protagonists of crime **International Terrorism** Donna M. A New Understanding of Terrorism M.R. Haberfeld, Agostino Hassell, 2009-07-09 Terrorism is a complex phenomenon that cannot be understood through reading of a number of unrelated academic articles or a dry overview of the history of terrorism or the investigative techniques For *A New Understanding of Terrorism* the Editors have chosen a different paradigm They have selected numerous case studies from actual events that illustrate various typologies of terrorist actions be it from a separatist nationalist lone wolf individual terrorist religious fanatics or environmentalist orientation and they present these cases within the context of following the trajectories of the terrorist activity the terrorist act itself and the response to the event from the relevant authorities Some chapters concentrate on terrorist attacks that actually took place others speculate about the possibilities of an attack occurring sometime in the future such as the chapters on the Olympic Games Aviation or Rail Security When possibilities rather than a specific event are discussed the authors of these chapters draw the attention of the reader towards the same direction the reasoning the actual event and the response that followed The thorough analysis of the presented case studies and the applied counter measures will hopefully if not curtail then possibly at least mitigate the operational and ideological strength of terrorist groups or individual actors *A New Understanding of Terrorism* will enable the reader to make the connection between the emotional charge inherent in any terrorist activity the cold blooded tactics that lead to the terrorist event itself

and the pragmatic and very straightforward but at the same time very simplistically designed strategic response that has to come from a synergy between academics military and law enforcement brainstorming design in order to be more effective in the future ABOUT THE EDITORS M R Maki Haberfeld is a Professor of Police Science at John Jay College of Criminal Justice in New York City She has worked for the U S Drug Enforcement Administration in the New York Field Office as a special consultant Prior to that she has served in a counter terrorist unit in the Israeli Defense Forces and she left the army at the rank of Sergeant She was also a lieutenant in the Israel National Police For the past eight years Dr Haberfeld has been involved in developing coordinating and teaching in a special training program for the New York City Police Department where she teaches courses in police ethics leadership and counter terrorism She was also an Academic Coordinator of the Law Enforcement Executive Police Institute for the State of New York where she taught modules on counter terrorism response Agostino von Hassell is the president of The Repton Group LLC a New York City based consulting group that deals mostly with national security issues He has written numerous political and historical articles and is the author of two major military histories Warriors The United States Marine Corps and Strike Force Marine Corps Special Operations In 2003 he published a pictorial portrait of the United States In Honor of America He has taught as an adjunct professor in the graduate program of John Jay College of Criminal Justice in New York teaching members of the New York City Police Department in subjects such as counter terrorism and leadership He is a life member of the United States Marine Corps Combat Correspondents the National Defense Industry Association the Association of Former Intelligence Officers and the Authors Guild

Terrorism and War Jean Arundale, Coline Covington, Jean Knox, Paul ((Psychotherapist)) Williams, 2018-03-29 Following the attacks of September 11th 2001 one of the resounding questions asked was What would make anyone do such a thing The psychological mentality of the suicidal terrorist left a gaping hole in people s understanding This essential volume represents a much needed effort to collate and examine some of the material already at our disposal as an encouragement to serious thought on this question and other related questions If terrorism is not new what is it about the recent attacks that gives us a sense that something has changed Is it the scale of the destruction or the anxiety that we are facing some altogether new uncertainty Are we in some sense facing a new enemy In reflecting on these and other related questions we may be facing a similar watershed of understanding to that faced by Freud at the end of the Great War In the absence of progress in our thinking today political leaders and public opinion will likely turn to previous political and religious ideas investing in them with a fundamentalist certainty that spells disaster Mass-Mediated Terrorism Brigitte

Nacos, 2016-02-05 With all new and expanded chapters the third edition provides an in depth look at how terrorists exploit mass media to get attention spread fear and anxiety among the targets of this sort of violence and threaten further attacks The traditional news media s appetite for shocking sensational and tragic stories has always resulted in over coverage of terrorist events and threats But today social media such as Twitter Facebook and YouTube allow terrorists to communicate

directly with huge audiences around the globe spreading their propaganda radicalizing and recruiting followers and providing know how to lone wolves On the other hand governments in democracies too utilize mass media to enlist public support for counterterrorist measures This volume will help readers to understand the centrality of media considerations in both terrorism and counterterrorism
