Schneider,2014-04-01 Corporate reform is not reform at all Instead it is the systematic destruction of the foundational American institution of public education The primary

motivation behind this destruction is greed Public education in America is worth almost a trillion dollars a year Whereas American public education is a democratic institution its destruction is being choreographed by a few wealthy well positioned individuals and organizations This book investigates and exposes the handful of people and institutions that are often working together to become the driving force behind destroying the community public school **Terra Nova: The Search** Nathan Charlton,2009-03-29 In a small central California town a seismologist working for the United States Geological Survey has made a terrifying discovery A recent seismic phenomenon is predicting global volcanic activity that threatens to wipe mankind from the face of the earth Fearing widespread panic and civil disobedience it is decided to keep the truth a secret from the public In order to save the human race the President pushes forward with a dramatic initiative to overhaul NASA and begin a new mission to colonize deep space The newly formed deep space team must harness the technology of researcher and single dad Tom Scolari but with their eyes focused on the stars the odds are against them at home News of the earth s demise is on the verge of becoming public and increasingly violent eruptions continue to mount around the globe The survival of the human race rests upon the shoulders of a few and time is running out **Terra Nova** Thelma Ritchie,2008-02 A ruthless trillionaire has plans for the Red Planet and its resourceful citizens must work together to confront this new and unexpected threat The author weaves science and Christianity together in this story of romance suspense and adventure in a futuristic frontier settlement on Mars **If Parents Cared Enough...** Mary M. Hall-Rayford,2012-09-10 Everyone knows by now or least thinks they know that a majority of students especially inner city students fall short on standardized tests in most public schools Media reports as well as government entities always infer that the fault of low student performance falls on the shoulders of the teachers Really Teachers have no control over the environment in which a child is raised Teachers have no control over whether parents read or do not read to their children Teachers have no control over district policies that do not add up to real school reform Teachers have no control over legislators who care more about politics than educating children So how is it that it is always the teachers fault that students do not perform well Student performance in schools excel when parents are actively engaged in creating and maintaining an environment that is conducive to learning raising children who are respectful and responsible getting involved in the business of learning in the schools with the local school board and in electing officials responsible for legislation regarding education **Culturally Contested Literacies** Guofang Li,2010-04-02 Culturally Contested Literacies examines the home and school literacy experiences of children from a uniquely socio cultural perspective including vivid detailed case studies describing the lives and literacy practices of six families **Schoolhouse Shams** Peter Downs,2013 Written by a parent and school board member who first embraced many of the ideas of the modern school reform movement Schoolhouse Shams lays bare much of the mythology and misinformation that underpin many of the failed school reform policies of the last decade Many of the top strategies of the highly publicized school reform movement already have been tried out in St Louis with

disastrous results Along with demonstrating the failure of school reform prescriptions to improve education the experience of St Louis demonstrates that the ideological premise of the reform movement that a focus on providing opportunities for private profit taking will necessarily improve schools is both wrong and conflicts with the ideals of democracy accountability and justice

Testing Knowledge Katrin Solhdju,Alice Rivieres,2021 This volume presents the collective adventure of Dingdingdong the Institute for the Co production of Knowledge about Huntington s Disease founded in 2012 between Paris and Brussels Katrin Solhdju s *Testing Knowledge Toward an Ecology of Diagnosis* pursues the question of taming the violence of the new species of medical foreknowledge represented by genetic testing Adopting historical and epistemological perspectives on diagnostic situations including observations from anthropological field research speculative storytelling and ancient oracles *Testing Knowledge* proposes a new ecology of predictive diagnostic gestures which potentially concern us all

Testing Knowledge is preceded by the Dingdingdong collective's Manifesto 2013 which tells the story of the young Alice Riviere who in 2006 took the presymptomatic genetic test foretelling her that she will eventually develop Huntington's.
