Test Of Loyalty American Family:

A Good American Family David Maraniss, 2020-11-10 Pulitzer Prize winning author and one of our most talented biographers and historians The New York Times David Maraniss delivers a thoughtful poignant and historically valuable story of the Red Scare of the 1950s The Wall Street Journal through the chilling yet affirming story of his family's ordeal from blacklisting to vindication Elliott Maraniss David's father a WWII veteran who had commanded an all black company in the Pacific was spied on by the FBI named as a communist by an informant called before the House Un American Activities Committee in 1952 fired from his newspaper job and blacklisted for five years Yet he never lost faith in America and emerged on the other side with his family and optimism intact In a sweeping drama that moves from the Depression and Spanish Civil War to the HUAC hearings and end of the McCarthy era Maraniss weaves his father's story through the lives of his inquisitors and defenders as they struggle with the vital 20th century issues of race fascism communism and first amendment freedoms Remarkably balanced forthright and unwavering in its search for the truth The New York Times A Good American Family evokes the political dysfunctions of the 1950s while underscoring what it really means to be an American It is clear eyed and empathetic Publishers Weekly starred review tribute from a brilliant writer to his father and the family he protected in dangerous times A Social History of the American Family from Colonial Times to the Present Arthur Wallace

Gordon, Beatrice L. Bridglall, Aundra Saa Meroe, 2005 In *Supplementary Education* the editors argue that while access to schools that enable and expect academic achievement is a necessary ingredient for the education of students schools alone may not be sufficient to ensure universally high levels of academic development Supplemental educational experiences may also be needed The idea of supplementary education is based on the assumption that high academic achievement is closely associated with exposure to family and community based activities and learning experiences that occur both in and out of school in support of academic learning For low income and some ethnic minority student groups opportunities to participate in such activities are generally under resourced and underutilized in comparison to the access to and participation in such activities by many European and Asian Americans from mid to high socio economic backgrounds This book makes the case for supplementary education Specifically it focuses on the need for universal access to high levels of academic achievement and the challenge of reducing the achievement gap that exists between Asian American and European American students and their African American Latina o and Native American counterparts Having posed the problem the editors define the construct and provide in depth descriptions of some of the more colloquial expressions of supplementation in after school care youth development and other forms of supplemental education The editors close with a discussion of the emerging institutionalization and need for more thoughtful and rigorous research of the supplementary education movement
