Texas Images And Visions:

Texas Images & Visions ,1983   *TEXAS IMAGES AND VISIONS.* ,1983   Texas Images & Visions William H. Goetzmann,Becky Duval Reese,1983   **Painting Texas History to 1900** Sam DeShong Ratcliffe,2014-11-06 Certificate of Commendation American Association for State and Local History 1994 T R Fehrenbach Book Award Texas Historical Commission 1992 San Antonio Conservation Society Citation 1993 Dramatic historical events have frequently provided subject matter for artists particularly in pre twentieth century Texas where works portraying historical often legendary events and individuals predominated Until now however these paintings of Texas history have never received the kind of study given to historical fictional and film versions of the same events Painting Texas History to 1900 fills this gap with an interdisciplinary approach that explores these paintings both as works of art and as historical documents The author examines the works of more than forty artists including Henry McArdle Theodore Gentilz Robert Onderdonk William Huddle Frederic Remington Friedrich Richard Petri Arthur T Lee Seth Eastman Sarah Hardinge Frank Reaugh W G M Samuel Carl G von Iwonski and Julius Stockfleth He places each work within its historical and cultural context to show why such subject matter was chosen why it was depicted in a particular way and why such a depiction gained popular acceptance For example paintings of heroic events of the Texas Revolution were especially popular in the years following the Civil War when in Ratcliffe s view Texans needed such images to assuage the loss of the war and the humiliation of Reconstruction Though the paintings cut across traditional art history categories from the pictographs of early historic Indians to European inspired oil paintings they are bound together by their artists intent for them to function as historically evocative documents With their visual narratives of events that characterized all of America s westward expansion Indian encounters military battles farming ranching surveying and the closing of the frontier these works add an important chapter to the story of the American West   **Engraved Prints of Texas** Mavis Parrott Kelsey,Robin Brandt Hutchison,2005 A collection of illustrated black and white engravings depicting the history of Texas from 1554 to 1900 presented chronologically and featuring a brief introduction to the historical background of each era   **Midcentury Modern Art in Texas** Katie Robinson Edwards,2014-07-01 Winner Award of Merit for Non Fiction The Philosophical Society of Texas 2015 Before Abstract Expressionism of New York City was canonized as American postwar modernism the United States was filled with localized manifestations of modern art One such place where considerable modernist activity occurred was Texas where artists absorbed and interpreted the latest most radical formal lessons from Mexico the East Coast and Europe while still responding to the state s dramatic history and geography This barely known chapter in the story of American art is the focus of Midcentury Modern Art in Texas Presenting new research and artwork that has never before been published Katie Robinson Edwards examines the contributions of many modernist painters and sculptors in Texas with an emphasis on the era s most abstract and compelling artists Edwards looks first at the Dallas Nine and the 1936 Texas Centennial which offered local artists a chance to take stock of who they were and

where they stood within the national artistic setting She then traces the modernist impulse through various manifestations including the foundations of early Texas modernism in Houston early practitioners of abstraction and non objectivity the Fort Worth Circle artists at the University of Texas at Austin Houston artists in the 1950s sculpture in and around an influential Fort Worth studio and to see how some Texas artists fared on a national scale the Museum of Modern Art s Americans exhibitions The first full length treatment of abstract art in Texas during this vital and canon defining period Midcentury Modern Art in Texas gives these artists their due place in American art while also valuing the quality of Texan ness that subtly undergirds much of their production   *Texas Made Modern* Shirley Reece-Hughes,2020-09-25 Everett Spruce came to Texas from his Arkansas home in 1925 to study at the Dallas Art Institute Over the next seven decades he became one of the most important painters and teachers in the region One of the Dallas Nine a group of influential Texas Regionalists that included Jerry Bywaters Otis Dozier William Lester and others Spruce was among the artists who lobbied the Texas Centennial Commission for a greater role in the Centennial Exposition of 1936 These efforts though unsuccessful nevertheless led to greater recognition and influence for Texas art and artists Spruce was assistant director and taught art at the Dallas Museum of Fine Arts until 1940 when he joined the faculty of the University of Texas at Austin He painted and taught at the university for the next 38 years guiding and shaping the next generation of Texas artists including Roger Winter William Hoey and others Spruce died in 2002 at the age of 94 Texas Made Modern The Art of Everett Spruce traces Spruce s artistic evolution from his early experimental work of the 1920s through the mysterious surrealist imbued landscapes of the 1930s The work addresses his boldly expressionistic imagery of the 1940s and his abstract expressionist inspired paintings of the mid twentieth century Departing from previous accounts of Spruce which label him a prototypical regionalist this study reveals the nuanced meanings behind the artist s shifting approaches to Texas subject matter and resituates his artwork within the broader narrative of American art   **Discovering Texas History** Bruce A.
