The Handbook Of National Population Censuses:

The Handbook of National Population Censuses Doreen S. Goyer, Gera E. Draaijer, 1992-04-30 The third volume in a three volume set this work is designed to take the difficulty out of doing research using census data In alphabetically arranged chapters it provides coverage of the contents of the censuses taken in the European states and territories *The Handbook of National Population Censuses* Eliane Domschke, Doreen S. Goyer, 1986-12-17 This is the second volume of a projected three volume set that will document the definitions concepts trends and contents of population censuses throughout the entire world This systematic and up to date handbook is unique in its scope and will open up a rather rare body of research literature to scholars in any field related to population The editors have organized the vast amount of information in an easily accessible format grouping countries and territories by world regions and including current maps for almost all of them Unlike previous works on censuses this handbook provides an expanded historical view of the countries which will be of great help in understanding census methods frequency and coverage *The handbook of national population censuses : Latin America and the Caribbean, North America, and Oceania* Doreen S. Goyer, Eliane Domschke, 1983

Research Guide to the Russian and Soviet Censuses Ralph S. Clem, 2016-11-01 Taken together the Russian census of 1897 and the Soviet censuses of 1926 1959 1970 and 1979 constitute the largest collection of empirical data available on that country but until the publication of this book in 1986 the daunting complexity of that material prevented Western scholars from exploiting the censuses fully This book is both a guide to the use of and a detailed index to these censuses The first part of the book consists of eight essays by specialist on the USSR six of them dealing with the use of census materials and the availability of data for research on ethnicity and language marriage and the family education and literacy migration and organization age structure and occupations The second part a comprehensive index for all the published census presents more than six hundred annotated entries for the census tables a keyword index that enables researchers to find census data by subject and a list of political administrative units covered in each census *National Library of Medicine Current Catalog*

National Library of Medicine (U.S.), **The Information-literate Historian** Jenny L. Presnell, 2019 The Information Literate Historian is the only book specifically designed to teach today's history students how to successfully select and use sources primary secondary and electronic to carry out and present their research Expanded and updated the third edition is an indispensable reference for historians students and other readers doing history research **Censuses and Census**

Takers Gunnar Thorvaldsen, 2017-11-13 This book analyses the international development of the census by comparing the history of census taking on all continents and in many countries The timeframe is wide from male censuses in the Bible to current censuses covering the whole population There is a focus on the efforts and destinies of census takers and the development of methods used to collect information into the census questionnaires The book highlights international cooperation in census taking as well as how computerized access to census data facilitates genealogical studies and

statistical research on both historical and contemporary societies It deals with such questions as Why did the French and British gentry block efforts at census taking in the 18th century What role did German censuses play during Holocaust Why were the Soviet census directors executed as part of the Moscow processes Why did US states sue the Census Bureau in the 1970s How do wars and revolutions affect census taking The text ends by discussing whether the days of the population census as we know it are numbered since countries exceedingly construct censuses by combining information from population registers rather than with questionnaires

Bureau of the Census, 1990 Includes subject area sections that describe all pertinent census data products available i e Business trade and services Geography Transportation etc *The Methods and Materials of Demography* Henry S. Shryock, Jacob S. Siegel, Elizabeth A. Larmon, 1973 **Map Guide to the U.S. Federal Censuses, 1790-1920** William Thorndale, William Dollarhide, 1987 Genealogical research in U S censuses begins with identifying correct county jurisdictions o assist in this identification the map Guide shows all U S county boundaries from 1790 to 1920 On each of the nearly 400 maps the old county lines are superimposed over the modern ones to highlight the boundary changes at ten year intervals Accompanying each map are explanations of boundary changes notes about the census locality finding keys In addition there are inset maps which clarify territorial lines a state by state bibliography of sources an appendix outlining pitfalls in mapping county boundaries Finally there is an index which lists all present day counties plus nearly all defunct counties or counties later renamed the most complete list of American counties ever published **The Methods and Materials of Demography** Henry S. The Handbook of Cross-Border Ethnic and Religious Affinities Charity Butcher, 2019-04-16 Increasingly ethnic and religious variables are taken into account to explain conflict and relations between nations. However ethnic and religious groups exist beyond the confines of frontiers. In Africa for example hundreds of ethnic groups were divided by colonial borders and many retained kinship connections to their brethren in other countries thus creating cross border ethnic religious affinity. Such cross border connections affect a variety of foreign policy from diplomacy to the use of force. An internal problem can spread to other states or external actors can become involved in domestic disputes due to such factors. Therefore data on cross border connections are essential to measure and assess their actual or potential effects on foreign policy or conflict. This unique resource serves both qualitative and quantitative researchers. For ease of use it is divided in sections for each region of world with the entries organized by pairs of contiguous countries. Each entry for a pair of countries briefly discusses the ethnic and religious groups that are common to both countries and the historical and current connections between these groups. The entries are organized based on the Correlates of War country codes which are widely used by researchers and allow for country pairs to be organized geographically within each section to facilitate easy use of the data.

Queralt,2022-08-09 How foreign lending weakens emerging nations In the nineteenth century many developing countries turned to the credit houses of Europe for sovereign loans to balance their books and weather major fiscal shocks such as war This reliance on external public finance offered emerging nations endless opportunities to overcome barriers to growth but it also enabled rulers to bypass critical stages in institution building and political development Pawned States reveals how easy access to foreign lending at early stages of state building has led to chronic fiscal instability and weakened state capacity in the developing world Drawing on a wealth of original data to document the rise of cheap overseas credit between 1816 and 1913 Didac Queralt shows how countries in the global periphery obtained these loans by agreeing to extreme conditionality which empowered international investors to take control of local revenue sources in cases of default and how foreclosure eroded a country s tax base and caused lasting fiscal disequilibrium Queralt goes on to combine quantitative analysis of tax performance between 1816 and 2005 with qualitative historical analysis in Latin America Asia Africa and the Middle East illustrating how overreliance on external capital by local leaders distorts their incentives to expand tax capacity articulate power sharing institutions and strengthen bureaucratic apparatus Panoramic in scope Pawned States sheds needed light on how early and easy access to external finance pushes developing nations into trajectories characterized by fragile fiscal institutions and autocratic politics **Technology, Policy, and Inclusion** Anjal Prakash,Aarushi Jain,Puran Singh,Avik
