Cohodas,2019-12-03 The peoples of northwestern California's Lower Klamath River area have long been known for their fine basketry. Two early twentieth century weavers of that region, Elizabeth Hickox and her daughter Louise, created especially distinctive baskets that are celebrated today for their elaboration of technique, form, and surface designs. Marvin Cohodas now explores the various forces that influenced Elizabeth Hickox, analyzing her relationship with the curio trade and specifically with dealer Grace Nicholson to show how those associations affected the development and marketing of baskets. He explains the techniques and patterns that Hickox created to meet the challenge of weaving design into changing three-dimensional forms. In addition to explicating the Hickoxes' basketry, Cohodas interprets its uniqueness as a form of intersocietal art, showing how Elizabeth first designed her distinctive trinket basket to convey a particular view of the curio trade and its effect on status within her community. Through its close examination of these superb practitioners of basketry, *Basket Weavers for the California Curio Trade* addresses many of today's most pressing questions in Native American art studies concerning individuality, patronage, and issues of authenticity. Graced with historic photographs and full-color plates, it reveals the challenges faced by early twentieth-century Native weavers. Published with the assistance of The Southwest Museum, Los Angeles. **Explorer's Guide Big Sur, Monterey Bay & Gold Coast Wine Country: A Great Destination** Buz

Monumental Lies Ronald M. James, 2023-09-19 A playful embrace of tall tales and exaggeration.

Monumental Lies explores the evolution of folklore in the Wild West. *Monumental Lies: Early Nevada Folklore of the Wild West* opens the door to understanding how legends and traditions emerged during the first decades following the Rush to Washoe, which transformed the region beginning in 1859. During this Wild West period, there was widespread celebration of deceit manifesting in tall tales, burlesque lies, practical jokes, and journalistic hoaxes. Humor was central to these endeavors, and practitioners easily found themselves scorned if they failed to be adequately funny. This ethos became central to the way folklore emerged during the formative years of the Nevada territory and state. The tens of thousands of people who came to the West, attracted by gold and silver mining, brought distinct cultural legacies. The interaction of diverse perspectives, even while new stories and traditions coalesced or simply appeared, was a complex process. Author Ronald M. James addresses how

the fluidity of the region affected new expressions of folklore as they took root Mark Twain often a go to source for collections of early tall tales of this region cannot be overlooked but his interaction with local traditions was specific and narrow More importantly William Wright publishing as Dan De Quille arose as a key collector of legends a counterpart of early European folklorists With a bedrock understanding of what unfolded in the nineteenth century it is possible to consider
