Menendez,2016-04-14 This book by Mr Menendez is a complete departure from his previous books His prior works though written as fiction did in fact chronicle investigations that he had conducted both in the federal and private sectors These cases were successfully litigated in the federal court for the southern district of Florida Mr Menendez maintains his unique style of storytelling however this book is a completely fictional story The story line will keep the reader transfixed and guessing as to what the conclusion will be While reading the story the reader will constantly wonder what the answer is Dr Harold Steiner is an internationally recognized researcher who together with other renown researchers set out to answer the question which scientists have pondered through the years What is the reason why some individuals in rare occasions become a genius The question is why is a genius a genius Dr Steiner as the main researcher and project director for the Genius Project spent over ten years researching this question By accident as often occurs in science he makes a discovery and at first he does not understand the enormous implication of what he has discovered He came to realize his discovery could alter the balance of power in the world if improperly utilized If utilized with the intent of helping the human race it could help in curing many types of mental illnesses He and his fellow researchers preferred risking death rather than allowing this discovery to fall in the hands of the intelligence community of nations His final act was to place upon the
