Fred Rankin,1997 Down Cathedral is one of the two oldest ecclesiastical foundations in Ulster still in use Although the present structure dates from the early 13th century it is known that there had been a monastery and place of worship on the Hill of Down for many centuries before then This book describes and illustrates the history of the Hill of Down from those earliest times to the present day The relationship of St Patrick with the Hill is narrated and takes careful account of the latest research some of it controversial on the association of the island's patron saint with the Hill on which he is thought to be buried The intriguing early and middle history of the Cathedral including the building of the Benedictine monastery the bishops and priors who ruled over it and its destruction at the dissolution of the monasteries in the middle of the 16th century is told in clear and absorbing detail Its subsequent restoration to full glory from the 1790s largely due to the influence of the Downshire family marks the beginning of the modern period for this much loved building The story is brought right up to date with the recent appointment of a New Bishop and a new Dean Important new sources in the State Papers and in archiepiscopal registers that have only recently become accessible have been used in the telling of this fascinating study Many of the images in this work are published for the first time and include photographs of irreplaceable artifacts uncovered during the significant archaeological excavations of the last few years The outcome is a comprehensive pioneering and beautifully illustrated account of one of Ireland's most treasured historical locations written

Influence on Architecture from 1791 Oliver Bradbury, 2017-07-05 Sir John Soane's Influence on Architecture from 1791 A Continuing Legacy is the first in depth study of this eighteenth century British architect's impact on the work of others extending globally and still indeed the case over 200 years later Author Oliver Bradbury presents a compelling argument that the influence of Soane 1753-1837 has persevered through the centuries rather than waning around the time of his death Through examinations of internationally renowned architects from Benjamin Henry Latrobe to Philip Johnson as well as a number of not so well known Soanean disciples Bradbury posits that Soane is perhaps second only to Palladio in terms of the longevity of his influence on architecture through the course of more than two centuries from the early 1790s to today concluding with the recent return to pure revivalism Previous investigations have been limited to focusing on Soane's late Georgian and then post modern influence this is the first in depth study of his impact over the course of two centuries Through this survey Bradbury demonstrates that Soane's influence has been truly international in the pre modern era reaching throughout the British Isles and beyond to North America and even colonial Australia Through his inclusion of select detailed case studies Bradbury contends that Soane's is a continuing not negated legacy in architecture      *The Elgar Society Journal* Elgar Society, 1991      **The Villas of Pliny from Antiquity to Posterity** Pierre de la Ruffinière du Prey, 1994 Pierre de la Ruffinière du Prey traces the influence of Pliny the Younger as a continuous theme throughout the history of architecture First he looks at what Pliny considered to be the essential qualities of a villa He then discusses the many buildings Pliny inspired from the Renaissance estates of the Medici to papal summer residences near Rome to Thomas Jefferson's Monticello and the home of former Canadian prime minister Pierre Elliott Trudeau Equally important to du Prey's study are the many designs by architects past and present that remain on paper These imaginary restitutions of Pliny's villas each representative of its own epoch trace in microcosm the evolution of the classical tradition in domestic architecture In analyzing each project du Prey illuminates the work of such great masters as Michelozzo Raphael Palladio and Schinkel as well as such well known modern architects as Le Corbusier Jean Pierre Adam and Thomas Gordon Smith      *A Bibliography of British History, 1914-1989* Keith Robbins, American Historical Association, Royal Historical Society (Great Britain), 1996 Containing over 25 000 entries this unique volume will be absolutely indispensable for all those with an interest in Britain in the twentieth century Accessibly arranged by theme with helpful introductions to each chapter a huge range of topics is

covered There is a comprehensive index      *Hawksmoor's London Churches* Pierre de la Ruffinière du Prey, 2000 Six remarkable churches built by Nicholas Hawksmoor from 1712 to 1731 still stand in London In this book architectural historian Pierre de la Ruffinière du Prey examines these designs as a coherent whole a single masterpiece reflecting both Hawksmoor's design principles and his desire to reconnect architecturally with the purest days of Christianity      **The Architecture of Andrew Thomas Taylor** Susan Wagg, 2013-04 How Andrew Thomas Taylor advanced the quality of architecture in Canada
