Space Sirens, Scientists and Princesses Dean Conrad, 2018-06-21 Women are now central to many science fiction films but that has not always been the case Female characters from their token presence or absence in the silent pictures of the early 20th century to their roles as assistants pulp princesses and sexy robots and eventually as scientists soldiers and academics have often struggled to be seen and heard in a genre traditionally regarded as of men by men and for men Surveying more than 650 films across 120 years the author charts the highs and lows of women's visibility in science fiction's cinematic history through the effects of two world wars social and cultural upheavals and advances in film technology 60 Postcards

Rachael Chadwick, 2015-02-26 The heartfelt and uplifting story of how a project to scatter 60 Postcards in memory of her mother helped a young girl come to terms with her loss On 11 February 2012 Rachael Chadwick lost her Mother to cancer just sixteen days after first being diagnosed and her world shattered right in front of her Utterly fed up of the milestones and reminders in December of that year she decided she would do something different and created a project based around her Mum's approaching 60th Birthday Desperate to spread the word about the wonderful person she had lost Rachael had the brainwave of leaving notes around a city in her memory Deciding she would take it a step further she wondered what would happen if she could ask people to respond to her Full of hope and energy she hand wrote sixty postcards each with her email address at the bottom asking the finder to get in touch But one question remained where should she go Knowing how much she longed to visit Paris the last gift that Rachael's mum had given her was Eurostar vouchers and so it seemed fitting that this would be her chosen city So off she went with a group of friends to celebrate discover and to scatter her memories Filling their time in Paris with sight seeing food and drink laughter and of course postcards Film, Fashion, and the 1960s

Eugenia Paulicelli, Drake Stutesman, Louise Wallenberg, 2017-09-11 A fascinating look at one of the most experimental volatile and influential decades Film Fashion and the 1960s examines the numerous ways in which film and fashion intersected and affected identity expression during the era From A Hard Day's Night to Breakfast at Tiffany's from the works of Ingmar Bergman to Blake Edwards the groundbreaking cinema of the 1960s often used fashion as the ultimate expression for urbanity youth and political un awareness Crumbling hierarchies brought together previously separate cultural domains and these blurred boundaries could be seen in unisex fashions and roles played out on the silver screen As this volume amply demonstrates fashion in films from Italy France England Sweden India and the United States helped portray the rapidly changing faces of this cultural avant gardism This blending of fashion and film ultimately created a new aesthetic that continues to influence the fashion and media of today **Expo Sixty Seven**

Miller,Dorothy Miller,1976 **Chichester in the 1960s** Alan H.J. Green,2015-02-02 Chichester is the archetypal Georgian town with streets of elegant buildings gathered closely around the ancient cathedral It usually appears to today s first time visitor that the city has been largely untouched by the hand of time particularly the destructive hand that guided the 1960s However this is not the case in the 1960s Chichester faced the same challenges as all historic towns and much was lost but the brakes were applied in good time and it became one of the first conservation areas in the country This book the first of its kind looks at how Chichester fared in that turbulent decade how it gained its status as a city of culture with a new theatre and museum and how it expanded to meet the demands of its growing populace Historical research blends with personal

Arreola,2013-08-01 A history in postcards of Mexican tourist towns in the first half of the twentieth century with nearly two hundred illustrations Between 1900 and the late 1950s Mexican border towns came of age both as tourist destinations in some cases by luring Americans who wanted to escape Prohibition and as emerging cities Commercial photographers produced thousands of images of their streets plazas historic architecture and tourist attractions which were reproduced as photo postcards Daniel Arreola has amassed one of the largest collections of these border town postcards and in this book he uses this amazing visual archive to offer a new way of understanding how the border towns grew and transformed themselves in the first half of the twentieth century as well as how they were pictured to attract American tourists *Postcards from the Río Bravo Border* presents nearly two hundred

images of five towns on the lower Rio Bravo Matamoros Reynosa Nuevo Laredo Piedras Negras and Villa Acuña Using multiple images of sites within each city Arreola tracks changes both within the cities as places and in the ways in which they have been pictured for tourist consumption He also shows how postcard images when systematically and chronologically arranged can tell us a great deal about how Mexican border towns have been viewed over time This innovative visual approach demonstrates that historical imagery no less than text or maps can be assembled to tell a fascinating geographical story This is masterful cultural geography with rich visual materials delivered in a unique and compelling fashion *Journal of Latin American Geography* Design and Emotion Deana McDonagh, Paul Hekkert, Jeroen van Erp, Diane Gyi, 2003-10-24

There is considerable interest in and growing recognition of the emotional domain in product development The relationship between the user and the product is paramount in industry which has led to major research investments in this area Traditional ergonomic approaches to design have concentrated on the user's physical and cognitive abilities *The Past in Visual Culture* Jilly Boyce Kay, Cat Mahoney, Caitlin Shaw, 2017-01-04

In recent years digital technology has made available an inconceivably vast archive of old media Images of the past accessed with the touch of a finger are now intertwined with those of the present raising questions about how visual culture affects our relationship with history and memory This collection of new essays contributes to a growing debate about how the past and its media are appropriated in the modern world Focusing on a range of visual cultures the essays explore the intersection of film television online and print media and visual art platforms whose boundaries are increasingly hard to define and the various ways we engage the past in an environment saturated with the imagery of previous eras Topics include period screen fiction nonfiction media histories and memories cinematic nostalgia and recycling and the media as both purveyors and carriers of memory Postcards from the Western Front Mark Connelly, 2022-09-15

Visitors to the battlefields of France and Belgium expressed pain and anguish pride and nostalgia and wonder and surprise at what they saw Postcards from the Western Front chronicles the many ways in which these sites were perceived and commemorated by British people both during the First World War and in the twenty years following the Armistice Mark Connelly's definitive and engaging study of the former Western Front examines how different and distinctive sub-communities regional ethnic and religious civilian and armed forces influenced the depth and strength of the visiting public's relationship with the battlefields all the while comparing and contrasting this relationship with the viewpoint of the French and Belgian inhabitants of the devastated regions Connelly draws from a vast archive a number of interlocking themes including the lingering presence of the battlefields in the British domestic imagination the often fraught experience of visiting the battlefields memorials and cemeteries functioning as part of a historical testimony to wartime realities and the interactions between visitors and the people living in these former fighting zones Focusing on French and Belgian sites Connelly nevertheless provides insight into other major battlefields fought over by troops from the British Empire Extensively illustrated with black and white photographs Postcards from the Western Front offers a groundbreaking

perspective on landscapes that rarely left anyone whether tourist inhabitant veteran or pilgrim unmoved
