Out of This World Rachel S. Cordasco, 2021-12-28 The twenty first century has witnessed an explosion of speculative fiction in translation SFT Rachel Cordasco examines speculative fiction published in English translation since 1960 ranging from Soviet era fiction to the Arabic language dystopias that emerged following the Iraq War Individual chapters on SFT from Korean Czech Finnish and eleven other source languages feature an introduction by an expert in the language s speculative fiction tradition and its present day output Cordasco then breaks down each chapter by subgenre including science fiction fantasy and horror to guide readers toward the kinds of works that most interest them Her discussion of available SFT stands alongside an analysis of how various subgenres emerged and developed in a given language She also examines the reasons a given subgenre has been translated into English An informative and one of a kind guide

Out of This World offers readers and scholars alike a tour of speculative fiction s new globalized era *Nature & Science on the Pacific Coast* , 1915 *Future and Fantastic Worlds* Sheldon Jaffery, 1987-01-01 *Future and Fantastic Worlds* embodies an unusual approach to the field of bibliographic research including over 700 annotations of every DAW book published through mid 1987 with indexes by author artist and title providing a massive guide to modern SF writers and their works with much background data Interspersed throughout the book are numerous wry irreverent and amusing observations offered by the late and highly respected researcher in this extremely valuable genre tool *The Interrogation of Joan of Arc* Karen Sullivan, 1999 The transcripts of Joan of Arc s trial for heresy at Rouen in

1431 and the minutes of her interrogation have long been recognized as our best source of information about the Maid of Orleans. Historians generally view these legal texts as a precise account of Joan's words and by extension her beliefs. Focusing on the minutes recorded by clerics, however, Karen Sullivan challenges the accuracy of the transcript. In *The Interrogation of Joan of Arc*, she re-reads the record not as a perfect reflection of a historical personality's words but as a literary text resulting from the collaboration between Joan and her interrogators. Sullivan provides an illuminating and innovative account of Joan's trial and interrogation, placing them in historical, social, and religious context. In the fifteenth century, interrogation was a method of truth-gathering identified not with people like Joan who was uneducated but with clerics like those who tried her. When these clerics questioned Joan, they did so as scholastics educated at the University of Paris, as judges and assistants to judges, and as pastors trained in hearing confessions. *The Interrogation of Joan of Arc* traces Joan's conflicts with her interrogators not to differing political allegiances but to fundamental differences between clerical and lay cultures. Sullivan demonstrates that the figure depicted in the transcripts as Joan of Arc is a complex, multifaceted persona that results largely from these cultural differences. Discerning and innovative, this study suggests a powerful new interpretive model and redefines our sense of Joan and her time.

[Global Science Fiction](#) Gary Westfahl, 2025-06-18 Science fiction represents a diverse community of writers and readers that spans the entire world. This collection provides a global tour of the genre with essays about Latin American, European, African, Arabic, Indian, Japanese, and Chinese science fiction, providing insights about how writers around the world have explored and reinvigorated the genre. Essays by prominent critics from five continents inform about particular cultures and analyze representative texts by authors such as Tobias S. Buckell, Lourenço Mutarelli, Stanislaw Lem, Masande Ntshanga, Tawfiq Al-Hakim, Anil Menon, and Cixin Liu. The contributing scholars examine how national experiences have shaped these narratives, which often differ strikingly from Anglo-American science fiction. An introductory survey of foreign language science fiction in the United States endeavors to explain why so many of these texts have remained unknown to Anglophone readers. An extensive bibliography lists numerous resources for further study of science fiction from various parts of the world.

Joan of Arc, A Saint for All Reasons Dominique Goy-Blanquet, 2017-03-02 The interaction of poetry and politics has shaped Joan into a transnational myth dedicated to the most contradictory causes. No other character has inspired a more impressive list of writers, but no other myth possesses the malleability required to serve rival camps. Whatever their distortions of fact for art's sake, these famed authors deployed an extensive knowledge of known records. The quality of the exchanges between the best creative and philosophical minds of preceding centuries, their capacity for reading a range of interests, literary judgment, critical shrewdness, all offer priceless models of investigation for our times. A close inquiry into the makings of the legendary heroine brings to light various false impressions still endorsed today by a number of noteworthy historians and literary critics. This collection of essays, updated for the English language edition, follows
