Mandela Effect Steve Adams, Have you heard of Dead Humanity theory It says that humanity died on 21 December 2012 exactly as predicted by the Mayans This might come as a big surprise to you given that you no doubt believe you are very much alive But are you Haven t you noticed that things have been getting seriously weird in the last few years Things don t seem to be as real as they used to be We seem to be in some fantasy world getting more bizarre by the second People are behaving extremely oddly Have we all actually become ghosts and just didn t realize we actually died Dead Humanity theory says that 21 December 2012 was actually when we were uploaded overnight into a technological Singularity and became part of an amazing simulation a true Matrix Our bodies became avatars so realistic we couldn t tell the difference or we were programmed not to see any difference We were given a new reality principle which was to accept the simulation as reality and to believe we had always been in this reality when in fact we only entered it a few years ago Our memories were adjusted by the Readjustment Bureau to make everything seem normal In the years leading up to the Death of Humanity many people were subjected to various test experiments to prove the concept They had their consciousness uploaded to the Singularity then back again Since they experienced different things in the Simulation they ended up with conflicting memories This all became known as the Mandela effect Some people in the simulation realized that things had changed dramatically and they came up with the Dead Internet theory which said that the Internet wasn t the same as it used to be It had actually died and been replaced by an Internet controlled by AI algorithms and bots Most content on the Internet was bot generated Most social media updates were by bots We were responding to a bot created world that had less and less need for humans These people hadn t got quite the right theory It wasn t the Internet that had died it was humanity However these people had powerfully intuited that something phenomenally strange was going on They just hadn t realized how strange As Sir Arthur Eddington said Not only is the universe stranger than we imagine it is stranger than we can imagine When in doubt consult the Bible It has all the answers God s answers What people have failed to realize is that the Bible itself predicts the Mandela effect *Skeletal System (ELL)*. ,2009 **Game Character Design Complete** David Franson,Eric Thomas,2006 A game is only as intriguing as the characters that inhabit its world Game Character Design Complete demonstrates each step of modeling texturing animating and exporting compelling characters for your games You ll learn how to model in 3ds Max from sketch references texture in Adobe Photoshop rig bones and animate a character back in 3ds Max Game Character Design Complete covers all aspects of character creation from the technical to the artistic Don t worry if your artistic ability isn t awe inspiring You ll cover every aspect of the design process in easy to follow steps including texturing and animating your character If you have a working knowledge of 2D and 3D graphics then you have all of the skills you need to begin creating cool characters for your games [Conversing with the Great Russian Elders](#) various Orthodox elders, via Kiyv Optina Sankt Peterburg and Moscow to Talabsk Zalit DONATE https://www.paypal.com/donate/hosted_button_id/VYUHBNF6FPB5Q <https://vidjambov.blogspot.com/2025/03/full-list-of-book-titles-as-of-2025.html> *Virtual Reality* Jae-Jin Kim,2011-01-08
