Myers,2006-10-27 Journalists should avoid cliches but they are just too useful A picture is worth 1 000 words and in the case of the 38 Gulf Breeze UFO photos shot by Ed Walters in 1987 1988 millions of them weird angry hilarious and profound words Words by Dave Barry Mike Royko and Fox Mulder Words on Unsolved Mysteries and Oprah With the 20th anniversary approaching I think about another cliché with a twist Truth is funnier than fiction As a reporter in Pensacola Fla I found myself in a War of the Words TV networks flocked to town Believers and Debunkers battled over Ghost Demon photos and Army deserters arrived in search of the Second Coming With the mayor and police chief on one side and community leaders and the local paper on the other I went looking for the last word on the subject I found a spaceship REVIEW Millions of Americans believe that we are regularly visited by beings from outside the Earth and many are sure they have seen UFOs and even see them regularly Craig R Myers has not only seen one but he has held it in his hand This was in Florida in the middle of the famous Gulf Breeze UFO mania of twenty years ago and the UFO which he had himself captured was of distinctly terrestrial origin but it had been made by the hoaxer who had sparked the Gulf Breeze sightings There are plenty of books to tell you where UFOs come from how we can invite more of them and what to do when one captures you War of the Words The True but Strange Story of the Gulf Breeze UFO Xlibris probably wont match sales of many of those other books but it is shocking and revelatory in its own way It is impossible to argue of course that since this episode was a hoax all UFO sightings are hoaxes and those who sight them are being fooled but Myers has given a story with a skeptical bent that indicates the most useful way to regard such phenomena It is a funny book it even includes Dave Barrys

amusing column about his own visit to Gulf Breeze and his investigation of the mania. It is however a serious report by a journalist who covered the story at the time skeptics ought to enjoy it and True Believers ought to learn from it. Woodward and Bernstein got the story of their lifetimes because they happened to be in the right place and time. Not every journalist's story of a lifetime has such national implications, but Myers is grateful that he was around for what he calls the most interesting, frightening, and funny story of my at that time short career. Maybe this was just in contrast to his usual beat for the Pensacola News Journal where he reported upon what the county commissioners and the utility authority were up to. A rival paper, The Gulf Breeze Sentinel, published anonymously submitted photographs of a UFO in November 1987, but they were not the first UFOs seen in the area. Gulf Breeze is directly in the flight path of an airport and is near a naval air station and an Air Force base so that there are plenty of lights in the sky. In such a locale, if you are of a mind to be fooled by a mysterious light, says Myers, it is quite simple to let yourself think that this is something besides an earthly craft. Indeed, on any clear night, the Gulf Breeze Research Team might be out doing what it called a Skywatch, excitedly whispering to each other, "Do you see that one?" So some Sentinel readers were already primed when the paper published a picture of a classic flying saucer. Myers says there are two ways a paper can report on UFOs. One is to report on the broad phenomenon of UFO sightings, and the other is to report UFO sightings as frequently and with as little confirmation and editing as it publishes engagements, weddings, births, Optimist Club donations, honor rolls, obits, and arrests. He does not crow too much that his Journal chose the former while the Sentinel chose the latter.

UFO Garrett M. Graff, 2024-11-12

One of the rare books on the topic that manages to be both entertaining and factually grounded. The Wall Street Journal. From the bestselling author of *Raven Rock: The Only Plane in the Sky* and Watergate finalist for the Pulitzer Prize in history comes the first comprehensive and eye-opening exploration of our government's decades-long quest to solve one of humanity's greatest mysteries: Are we alone in the universe? For as long as we have looked to the skies, the question of whether life on earth is the only life to exist has been at the core of the human experience, driving scientific debate and discovery, shaping spiritual belief, and prompting existential thought across borders and generations. It's one of our culture's favorite conversations, and yet the idea of extraterrestrial intelligence has been largely banished to the realm of fantasy and conspiracy. Now, for the first time, the full story of our national obsession with UFOs and the covert search by scientists, the United States military, and the CIA for proof of alien life is told by bestselling author and Pulitzer Prize finalist Garrett M. Graff in a deeply reported and researched history. It begins in 1947 when two headline-making sightings of strange flying objects prompt the US Air Force's newly formed Department of Defense to create a series of secret programs to determine how unidentified phenomena may pose a threat to national security. Over the next half century, as the atomic age gives way to the space race and the Cold War, the mission continues, bringing together an unexpected group of astronomers, military officials, civilian contactees, and true believers who bring us closer, then further, then closer again to answering one of our most enduring questions: What exactly is

out there Drawing from original archival research declassified documents and interviews with senior intelligence and military officials Graff brings readers a story that s Loads of fun a fascinating deep dive down the rabbit hole Publishers Weekly
