Right-sizing the State Brendan O'Leary, Ian Lustick, Thomas M. Callaghy, 2001 Strategic decisions to reduce the size scope or ambitions of organizations including states in order to enhance future

prospects are among the most difficult and least well understood choices made in collective life This volume makes a bold effort to identify the conditions in which less really is more Each contributor to the volume analyzes the possibilities for institutional redesign including state contraction for responding effectively to destabilizing and often violence laden conflicts Among the countries discussed in detail are Turkey Pakistan Morocco Congo Jordan Indonesia Russia and the former Soviet Union Iraq and India An impressive array of experts assess strategies that go against the grain strategies to rightsize and even downsize states by changing their external and internal borders Typically this means opposing prevailing prejudices against partition and separatist solutions as well as paying high political costs in the short run for more manageable political problems in the long run Understanding the conditions under which such strategies can be entertained and successfully implemented is as difficult and as important as making this kind of option available to beleaguered states in a complex and rapidly changing world

Forgotten Voices Ulrich Merten, 2017-07-05 The news agency Reuters reported in 2009 that a mass grave containing 1 800 bodies was found in Malbork Poland Polish authorities suspected that they were German civilians that were killed by advancing Soviet forces A Polish archeologist supervising the exhumation said We are dealing with a mass grave of civilians probably of German origin The presence of children suggests they were civilians During World War II the German Nazi regime committed great crimes against innocent civilian victims Jews Poles Russians Serbs and other people of Central and Eastern Europe At war s end however innocent German civilians in turn became victims of crimes against humanity Forgotten Voices lets these victims of ethnic cleansing tell their story in their own words so that they and what they endured are not forgotten This volume is an important supplement to the voices of victims of totalitarianism and has been written in order to keep the historical record clear The root cause of this tragedy was ultimately the Nazi German regime As a leading German historian Hans Ulrich Wehler has noted Germany should avoid creating a cult of victimization and thus forgetting Auschwitz and the mass killing of Russians Ulrich Merten argues that applying collective punishment to an entire people is a crime against humanity He concludes that this should also be recognized as a European catastrophe not only a German one because of its magnitude and the broad violation of human rights that occurred on European soil Supplementary maps and pictures are available online at <http://www.forgottenvoices.net>

Expelling the Germans Matthew Frank, 2008-03-06 Expelling the Germans focuses on how Britain perceived the mass movement of German populations from Poland and Czechoslovakia at

the end of the Second World War Drawing on a wide range of British archival material Matthew Frank examines why the British came to regard the forcible removal of Germans as a necessity and evaluates the public and official responses in Britain once mass expulsion became a reality in 1945 Central to this study is the concept of population transfer the contemporary idea that awkward minority problems could be solved rationally and constructively by removing the population concerned in an orderly and gradual manner while avoiding unnecessary human suffering and economic disruption Dr Frank demonstrates that while most British observers accepted the principle of population transfer most were also consistently uneasy with the results of putting that principle into practice This clash of principle with practice reveals much not only about the limitations of Britain's role but also the hierarchy of British priorities in immediate post war Europe
