Territorial Competition In An Integrating Europe:

Territorial Competition in an Integrating Europe P. C. Cheshire, Ian R. Gordon, 1995 This book presents the first set of studies of the new forms in inner city competition in Europe stimulated by the creation of the new single European market The studies undertaken by an international team of scholars from France Italy The Netherlands Sweden Switzerland and the UK provide comparative analyses of the competitive activities of local agencies and their relevance to businesses locational decision making and processes of economic change at the establishment level This is done through systematic studies both of policy and of a substantial sample of establishments in selected leading metropolitan regions London and the South East Stockholm The Randstad Milan and Zurich Integration and Transition in Europe Grzegorz Gorzelak, Gunther Maier, George Petrakos, 2013-01-11 With the harmonization of the EU economies and issues of EU enlargement and integration with Europe's transition economies topping the political agenda the economic geography of Europe is being recast This important volume analyses the spatial implications of the integration transition process and examines key issues such as north south and east west divides regional cooperation and cross border dynamics *Theories of Endogenous Regional Growth* Börje Johansson, Charlie Karlsson, Roger R. Stough, 2012-12-06 During the last two decades a new growth theory has emerged often labelled endogenous economic growth The contributions in the book develop these advances into a theoretical framework for endogenous regional economic growth and explain the implications for regional economic policies in the perspective of the new century Endogenous growth models can reflect increasing returns and hence refer more adequately to empirical observations than earlier models and the models become policy relevant because in endogenous growth models policy matters Such policies comprise efforts to stimulate the growth of knowledge intensity of the labour supply and knowledge production in the form of R D

Regional Competitiveness Ron Martin, Michael Kitson, Peter Tyler, 2012-11-12

There is now a wide spread interest in regions as a key focus in the organization and governance of economic growth and wealth creation This important book considers the factors that influence and shape the competitive performance of regions This is not just an issue of academic interest and debate but also of increasing policy deliberation and action However as the readings in this book make clear the very idea of regional competitiveness is itself complex and contentious Many academics and policy makers have used the concept without fully considering what is meant by the term and how it can be measured Policy formulation has tended to rush ahead of understanding and analysis and the purpose of this book is to close this important gap in understanding This book was previously published as a special issue of *Regional Studies*

The SAGE Handbook of European Studies Chris Rumford, 2009-06-18 This volume brings together some of the biggest names in European Studies to analyse the most important trajectories of Europe's development and the challenges faced by the continent today No one interested in Europe will be able to ignore this extraordinary collection of scholarship Professor Thomas Diez University of Birmingham In its range and comprehensiveness it will be hard to beat and it will certainly become an invaluable resource for sociologists political scientists historians and all others seeking the best information and most up to the date approaches to the study of Europe today Professor Krishan Kumar University of Virginia An impressive account of the state of the art of the study of contemporary Europe This is an outstanding work and a definite companion to all those interested in contemporary Europe *Journal of Contemporary European Studies* Europe is one of the world's oldest

civilizations But what does it mean to be European today What place does Europe have in global affairs How should we analyze its key institutions system of governance and broader cultural social and political dynamics This exhaustive and timely handbook Explores the transformations that characterize contemporary Europe Investigates how we can best study Europe Consolidates European studies and provides a platform for future study Increases the profile of European studies The Handbook promotes the increasing diversity of perspectives employed in the study of contemporary Europe and EU integration and is situated within the context of Europe's transformations It offers balanced coverage of political social economic cultural and institutional dimensions of Europe and includes chapters by leading authorities including Ulrich Beck Craig Calhoun Donatella della Porta Claus Offe Anssi Paasi Ben Rosamond Gurinder Bhambra and Charles Tilly Multidisciplinary in organization inclusive in coverage and cutting edge in scope The SAGE Handbook of European Studies is a landmark resource for anyone interested in Europe

Global City-Regions Allen J. Scott, 2001-01-25 There are now more than three hundred city regions around the world with populations greater than one million These city regions are expanding vigorously and they present many new and deep challenges to researchers and policy makers in both the more developed and less developed parts of the world The processes of global economic integration and accelerated urban growth make traditional planning and policy strategies in these regions increasingly inadequate while more effective approaches remain largely in various stages of hypothesis and experimentation Global City Regions represents a multifaceted effort to deal with the many different issues raised by these developments It seeks at once to define the question of global city regions and to describe the internal and external dynamics that shape them it proposes a theorization of global city regions based on their economic and political responses to intensifying levels of globalization and it offers a number of policy insights into the severe social problems that confront global city regions as they come face to face with an economically and politically neoliberal world At a moment when globalization is increasingly subject to critical scrutiny in many different quarters this book provides a timely overview of its effects on urban and regional development one of its most important but perhaps least understood corollaries The book also offers a series of nuanced visions of alternative possible futures

Cultural and Creative Industries and Regional Development Roberto Dellisanti, 2023-05-16 This book explores the role of the cultural and creative industries CCIs as drivers of local economic development More specifically it builds on two novel perspectives in order to interpret the phenomenon First despite the general recognition that CCIs are innovative economic actors their creative output is heterogeneous as CCIs consist of extremely diverse industries and the concept of innovation differs from sector to sector Second CCIs creativity is locally rooted as the context provides innovative inputs for the development of creative ideas binding creativity with well established theories of the regional innovation literature The book explores these new perspectives through a novel database on CCIs innovation at a fine industrial and regional scale Building on these two ideas the book is subdivided into three parts In the first a novel definition of creativity in CCIs is developed in which its

heterogeneity and place based nature are at the core In turn the second part addresses the phenomenon of localization choices in CCIs highlighting their heterogeneous innovativeness and the fili re which they belong to as key dimensions for the analysis In the third part the impact of CCIs on economic growth is explored This book offers new evidence on the conditions under which CCIs cluster in space and stimulate development It appeals to scholars in regional science cultural economics and related fields as well as policymakers and practitioners working in the cultural and creative industries

Urban Growth and Development in Asia Graham P. Chapman,Ashok K. Dutt,2019-01-15 First published in 1999 this volume begins with a panoramic survey by Nigel Harris of the drama of Asian Urbanization based on the inaugural plenary lecture he gave to the 5th Asian Urbanization Conference held in London In the following chapters many experts and practitioners from different countries and cities provide a stimulating portrayal of the processes and outcomes of one of the greatest shifts of population not just absolutely but proportionately as well ever to have occurred in human history Asia includes more than half the world s population but apart from the Tiger economies and Japan it is still overwhelmingly rural In the last decade or so urbanization has really begun to take off and the shift of population to the cities represents one of the greatest population movements the planet has ever seen By 2030 more than 50% of Asia s population will be urban and between now and then more than 500 million people in Asia will have moved looking for jobs housing food and water They will be both part of a problem and most of the solution building around them the cities they will live in *Urban Change in the United States and Western Europe* Anita A. Summers,P. C. Cheshire,Lanfranco Senn,1999 In this completely revised second edition the authors explore what can be learned from a rigorous comparison of the patterns of urban concentrations of residents and employment in Western Europe and the United States Using a wide range of methodological techniques including economic theory econometrics regional science and institutional historical analysis the essays analyze the factors underlying urban economic development with particular emphasis on the role and effectiveness of public policy

Compounded Representation in West European Federations Joanne B. Brzinski,Thomas D. Lancaster,Christian Tuschhoff,1999 These papers resulted from a research project entitled Federalism and Compounded Representation in Western Europe They place analytical emphasis on theoretical and contextual issues of representation and tend to analyze the complexities of representation within federal systems by focusing on issues of social identity multiple territorial bases of governance and policy making institutions such as interest groups corporatism and the European Union Specific countries examined include Germany Austria and Spain *Culture and Sustainability in European Cities* Svetlana Hristova,Milena Dragičević Šešić,Nancy Duxbury,2015-04-21 European cities are contributing to the development of a more sustainable urban system that is capable of coping with economic crises ecological challenges and social disparities in different nation states and regions throughout Europe This book reveals in a pluralistic way how European cities are generating new approaches to their sustainable development and the special contribution of culture to these processes It addresses both a

deficit of attention to small and medium sized cities in the framework of European sustainable development and an underestimation of the role of culture artistic expression and creativity for integrated development of the city as a prerequisite to urban sustainability On the basis of a broad collection of case studies throughout Europe representing a variety of regionally specific cultural models of sustainable development the book investigates how participative culture community arts and more generally creativity of civic imagination are conducive to the goal of a sustainable future of small and medium sized cities This is an essential volume for researchers and postgraduate students in urban studies cultural studies cultural geography and urban sociology as well as for policymakers and practitioners wanting to understand the specificity of European cities as hubs of innovation creativity and artistic industriousness *Regional Economic Growth, SMEs and the Wider Europe* B. Fingleton, Ayda Eraydn, Raffaele Paci, 2017-11-22 This title was first published in 2003 This work intends to make an important and interesting contribution to the wider debate on European regional development It looks beyond the confines of the EU proper and combines interesting and relevant case studies from a broader pan European perspective Also the approaches adopted are informed by a variety of theoretical positions By addressing the changing roles of SMEs in different regions of Eastern Europe readers should gain insights into the different dimensions of SME development and the link between SMEs and regional growth **Mapping European Economic Integration** A. Verdun, A. Tovas, 2013-11-14 By examining the various policy subfields of European economic integration such as agriculture trade banking economic governance and sustainability this book offers a comprehensive and wide ranging analysis of developments that have taken place in the past five years aimed at exploring the path of economic integration in Europe **Politics of European Treaty Reform** Geoffrey Edwards, Alfred Pijpers, 1997-01-01 The major constitutional political and legal issues confronting the European Union as the end of the century approaches are discussed in this book by scholars in the field Taking as their point of departure the Inter Governmental Conference of 1996 which will set the parameters for the next stage of integration in Europe they look at external and internal demands and pressures and at the interests and strategies of the political actors involved The result is a wide ranging assessment of Europe's future **Bridging Divides** Eve Darian-Smith, 1999-10 This study uses the Channel Tunnel between England and France to explore the shifting geographies of nationalism postcolonialism and legal autonomy in the formation of the European Union It looks at regional differences in feelings about Europe and at vocabulary used in discussing the Tunnel *Handbook of Regions and Competitiveness* Robert Huggins, Piers Thompson, 2017-03-31 The aim of this Handbook is to take stock of regional competitiveness and complementary concepts as a means of presenting a state of the art discussion of the contemporary theories perspectives and empirical explanations that help make sense of the determinants of uneven development across regions Drawing on an international field of leading scholars the book is assembled and organized so that readers can first learn about the theoretical underpinnings of regional competitiveness and development theory before moving on to deeper discussions of key

factors and principal elements the emergence of allied concepts empirical applications and the policy context

Metropolitan Governance and Spatial Planning Anton Kreukels, Willem Salet, Andy Thornley, 2005-08-19 Metropolitan Governance and Spatial Planning explores the relationship between metropolitan decision making and strategies to co ordinate spatial policy This relationship is examined across 20 cities of Europe and the similarities and differences analysed Cities are having to formulate their urban policies in a very complex and turbulent environment They are faced with numerous new pressures and problems and these often create contradictory conditions The book provides a theoretical framework for exploring these issues and links this to a detailed investigation of each city In the context of globalisation cities in the last twenty years have experienced new patterns of activity and these usually transcend political boundaries The management of these changes therefore requires an effort of co ordination and different cities have found different approaches However the institutional setting itself has not remained static The nation states in Europe have handed over many responsibilities to the European Union while also increasing devolution to regions and cities Government has therefore become a more complex multi level activity There has also been the move from government to governance Many different public quasi public and private bodies are now involved in making decisions that affect urban development Metropolitan governance is therefore also a complex multi actor process In these conditions of fragmented governance and the widening spatial networking of urban development the issue of policy co ordination become ever more important The exploration of the 20 cities shows that many face similar difficulties while some also provide interesting examples of innovative practice The book concludes that the way forward is to find strategies to link the different spheres of metropolitan action through organising connectivity

Handbook of Regional Innovation and Growth Philip Cooke, Bjørn Asheim, Ron Boschma, Ron Martin, Dafna Schwartz, Franz Tötting, 2011-01-01 Today economic growth is widely understood to be conditioned by productivity increases which are in turn profoundly affected by innovation This volume explores these key relationships between innovation and growth bringing together experts from both fields to compile a unique Handbook The Handbook considers innovation from fresh perspectives encompassing topics such as services innovation inward investment and innovation creative industry innovation and green innovation It is divided into seven sections dealing with regional innovation and growth theory dynamics evolution agglomeration innovation worlds innovation system institutions and innovation governance and policy This definitive compendium on regional innovation and growth will undoubtedly appeal to teachers students researchers and practitioners of innovation and growth dynamics worldwide
