Territorial and Commercial Expansion of the United States, 1800-1900 (Classic Reprint)

United States Treasury Department, 2018-02-21 Excerpt from Territorial and Commercial Expansion of the United States 1800 1900 The conjunction or approximate conjunction of several centennial periods in the history of the United States suggests the presentation in narrative as well as statistical form of some facts regarding the territorial expansion and material progress of the country since the organization of the present form of government A dozen years ago occurred the centennial of the establishment of the present form of government three years later the fourth centennial of the discovery of America a little later the close of the nineteenth century and with it the census and other records of decennial and centennial progress and in the same year the centennial of the location of the seat of government at Washington within a short time the centennial of the Louisiana Purchase is to be celebrated a little later a similar recognition of the great exploring expedition which resulted in extending the control of the United States to the Pacific coast at the northwest and in 1907 will occur the third centennial of the first permanent settlement in the United States Jamestown 1607 The conjunction or approximate conjunction of these great centennial anniversaries seems to justify the presentation somewhat in detail of not only the additions to the area and the transitions of the various areas into the present political divisions but also a statistical outline of the material development in population production commerce manufactures and wealth which has during the century brought the United States to the head of the world's list of producing manufacturing and exporting nations There have been fifteen additions to the original territory of the Union including Alaska the Hawaiian Philippine and Samoan islands and Guam in the Pacific and Porto Rico in the West Indies and the total area of the United States including the noncontiguous territory is now fully five times that of the original thirteen colonies The series of maps which follow show each of these additions to the original territory also the steps by which the original territory and that added at the various dates were

transformed first into Territories and then into the States as they now exist In attempting to present to the eye by a series of maps a chronological history of the transition from the original territory of about square miles to the present area of square miles and from the thirteen original colonies to more than fifty political divisions only the important steps can be presented and many comparatively unimportant changes in boundary lines must necessarily be omitted About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
