*An Ethico-Political Evaluation of the Necessity for a Referendum over any Future German Olympic Bid* Lucia Gosebrink,2023-12-26 The implementation of referenda in advance to an Olympic bid is common in Western democratic countries In many cases they have produced negative results ending the aspiration of Olympic Games on the spot Germany is no exception to this case While recent research has predominantly investigated the possible reasons why past referenda have failed the aim of this book is to evaluate the necessity of a referendum as a tool in the first place Since a referendum is no formal requirement by the International Olympic Committee IOC its application is examined on an ethico political level Therefore the advantages and disadvantages of a referendum in terms of any future German Olympic bid are analysed and discussed from a political civil and German Olympic Sports Confederation DOSB perspective Based on the findings this work rejects the necessity of a referendum before a German Olympic bid as the alignment of ethico political considerations analysed does not seem to be sufficiently pronounced in the de jure and de facto implementation of this tool     **Kiplinger's Personal Finance** ,1986-02 The most trustworthy source of information available today on savings and investments taxes money management home ownership and many other personal finance topics
