Stop High-stakes Testing Dale D. Johnson, 2008 The objectives of corrective justice are affordable housing with reliable running water and electricity employment for parents and guardians to make a living wage top notch tutors for all children who need them equity in school buildings personnel and resources adequate medical and dental care for all students and violence free communities and home lives These objectives are appropriate in a nation where children recite the words with liberty and justice for all at the start of each school day The authors argue that until corrective justice has been established high stakes testing in public schools must be discontinued

BOOK JACKET *Exploring Teachers in Fiction and Film* Melanie Shoffner, 2016-03-31 This book about teachers as characters in popular media examines what can be learned from fictional teachers for the purposes of educating real teachers Its aim is twofold to examine the constructed figure of the teacher in film television and text and to apply that examination in the context of teacher education By exploring the teacher construct readers are able to consider how popular

fiction and film have influenced society's understandings and views of classroom teachers. Organized around four main themes: Identifying with the Teacher, Image Constructing the Teacher, with Content Imaging the Teacher, as Savior, The Teacher Construct as Commentary, the chapters examine the complicated mixture of fact, stereotype, and misrepresentation that create the image of the teacher in the public eye today. This examination in turn allows teacher educators to use popular culture as curriculum. Using the fictional teacher as a text, preservice and practicing teachers can examine positive and negative and often misleading representations of teachers in order to develop as teachers themselves.

Word Nerds
Brenda L. Overturf, Leslie Montgomery, Margot Holmes Smith, 2023-10-10. Word mastery comes from intimate knowledge of language. In *Word Nerds: Teaching All Students to Learn and Love Vocabulary*, authors Leslie Montgomery and Margot Holmes Smith take you inside classrooms where they implement creative, flexible vocabulary instruction that improves their students' word knowledge and confidence. With support from literacy specialist Brenda Overturf, the authors developed a five-part plan to teach all students to learn vocabulary: Introducing new words in context, Adding related synonyms and antonyms, Engaging in several days of active learning, Celebrating new words, Assessing vocabulary development. This easy-to-read reference explains how to plan, teach, and assess based on the latest research in vocabulary instruction and learning. After incorporating the authors' plan, you can be a Word Nerd too.

Children's Reading Comprehension and Assessment
Scott G. Paris, Steven A. Stahl, 2005-03-23. Originating in a recent CIERA conference held at the University of Michigan, this book brings together the nation's most distinguished researchers to examine how readers understand text and how comprehension is assessed. The first part provides both national and historical contexts for the study of reading comprehension. The second part examines how vocabulary, motivation, and expertise influence comprehension and includes analyses of the developmental course and correlates of comprehension. Chapters in the third part consider how schools focus on comprehension for instruction and assessment. The fourth part includes chapters on large-scale assessment that analyze how test formats and psychometric characteristics influence measures of reading comprehension. At the end of each part is a commentary written by an expert that reviews the chapters, critiques the main points, and synthesizes critical issues. Key features of this outstanding new book include: Integration of Research and Practice provides a bridge between conceptual issues studied by researchers concerned with reading comprehension theories and practical issues addressed by educators concerned with classroom instruction and assessment; Comprehension Focus provides a thorough history and rigorous research-based analyses of reading comprehension; Assessment Focus provides innovative approaches to comprehension assessment that include the influences of vocabulary, decoding, and motivation; Synthetic Commentaries provides periodic summaries that analyze and synthesize research practices and issues discussed in each part. Expertise contributing authors and commentators are highly respected authorities on reading comprehension. See table of contents. This text is appropriate for educational and psychological researchers, reading educators, and graduate students in education and psychology. It is

part of the CIERA series which includes the following volumes Taylor and Pearson Teaching Reading Effective Schools Accomplished Teachers 2002 Van Kleeck Stahl and Bauer On Reading Books to Children Parents and Teachers 2003 Hoffman and Schallert The Texts in Elementary Classrooms 2005 Where's the Wonder in Elementary Math? Judith McVarish, 2012-08-21 This book argues that even in today's high stakes testing environment teaching to the test need not be teachers only focus as they introduce young children to mathematics Judith McVarish demonstrates how building a community of learners and using problem solving to engage students can help teachers encourage students disposition to creative thinking and reasoning skills that can otherwise become lost due to the pressure of the many other expectations placed upon both teachers and students This book offers strategies for infusing mathematics learning and reasoning into elementary school classrooms while meeting curriculum and testing mandates The teacher researcher component of each chapter provides a vehicle for teachers to bring their own expertise and questions back into the teaching and learning equation
