**The Romance Of Risk** Lynn E

Ponton,2008-08-06 Dr Lynn Ponton has devoted her clinical practice to a particular community teenagers in trouble Whether these kids are struggling with peers experimenting with drugs stealing cars or having unprotected sex they have something in common they are all involved in unhealthy risk taking And their parents are scared How did my child get involved in this dangerous situation they ask And what can I do Their fears are justified today s teens have more opportunities for taking dangerous risks than ever before But in The Romance of Risk Dr Ponton refutes the traditional idea that risk taking is primarily an angry power struggle with parents so called teenage rebellion and re defines it as a potentially positive testing process whereby challenge and risk are the primary tools adolescents use to find out who they are and determine who they will become This new perspective is revealed in a series of mesmerizing tales about individual adolescents and their families Among others we meet Jill a 13 year old thrill seeking runaway Hannah a privileged daughter of suburbia who suffers from anorexia and Joe a high school senior with a serious drinking problem Through these stories we come to understand Dr Ponton s startling observation that teenagers must confront and experience challenge and risk along the path to self discovery For adolescents the powerful allure of the adult world is equaled only by the fear of failing to find a place in it Parents can ease that transition into adulthood however by promoting healthy risk taking so that dangerous options will be avoided In The Romance of Risk parents will learn how they can begin to understand rather than fear adolescent risk taking and how to communicate with their children about it After all teenagers will always romanticize risk But with the support and guidance of parents and other adults odds are the risks they take will be the right ones
