Book and Text in France, 1400-1600 Malcolm Quainton, 2016-12-05 In recent years literary scholars have come increasingly to acknowledge that an adequate understanding of texts requires the study of books the material objects through which the meanings of texts are constructed Focusing on French poetry in the period 1400 1600 contributors to this volume analyze layout illustration graphology paratext typography anthologization and other such elements in works by a variety of writers among them Charles d Orl ans Jean Bouchet Pierre de Ronsard and Louise Lab They demonstrate how those elements play a crucial role in shaping the relationships between authors texts contexts and readers and how these relationships change as the nature of the book evolves An introduction to the volume outlines the methodological implications of studying the materiality of literature in this period situates the various papers in relation to each other and to the field as a whole and indicates possible future directions of research in the field By engaging with issues of major current methodological concern this volume appeals to all scholars interested in the materiality of the literary text including the burgeoning field of text image studies not only in French but also in other national literatures In addition it enables fruitful connections to be made between late medieval and Renaissance literature areas still often studied in isolation from each other

Shakespeare as Literary Dramatist Lukas Erne, 2003-03-13 In this 2003 study Lukas Erne argues that Shakespeare apart from being a playwright who wrote theatrical texts for the stage was also a literary dramatist who produced reading texts for the page The usual distinction that has been set up between Ben Jonson on the one hand carefully preparing his manuscripts for publication and Shakespeare the man of the theatre writing for his actors and audience indifferent to his plays as literature is questioned in this book Examining the evidence from early published playbooks Erne argues that Shakespeare wrote many of his plays with a readership in mind and that these literary texts would have been abridged for the stage because they were too long for performance The variant early texts of Romeo and Juliet Henry V and Hamlet are shown to reveal important insights into the different media for which Shakespeare designed his plays The Shakespearean Archive Alan Galey, 2014-10-23 Why is Shakespeare so often associated with information technologies and with the idea of archiving itself Alan Galey explores this question through the entwined histories of Shakespearean texts and archival technologies over the past four centuries In chapters dealing with the archive the book photography sound information and data Galey analyzes how Shakespeare became prototypical material for publishing experiments and new media projects as well as for theories of archiving and computing Analyzing examples of the Shakespearean archive from the seventeenth century to today he takes an original approach to Shakespeare and new media that will be of interest to scholars of the digital humanities Shakespeare studies archives and media history Rejecting the idea that current forms of computing are the result of technical forces beyond the scope of humanist inquiry this book instead offers a critical prehistory of digitization read through the afterlives of Shakespeare s texts *Spanish Studies in Shakespeare and His Contemporaries*

José Manuel González Fernández de Sevilla, 2006 *Spanish Studies in Shakespeare and His Contemporaries* offers a selection of the most significant studies on Shakespeare and his contemporaries from a variety of perspectives in order to present a fresh and inclusive vision of Shakespearean criticism in Spain to reach a worldwide readership. Plurality, maturity, and diversity are its outstanding characteristics as the transition has given shape to new critical attitudes, readings, and approaches in the analysis and study of Shakespeare in the new Spain.

Coleridge and Contemplation Peter Cheyne, 2017-07-25 *Coleridge and Contemplation* is a multi-disciplinary volume on Samuel Taylor Coleridge, founding poet of British Romanticism, critic, and author of philosophical, political, and theological works. In his philosophical writings, Coleridge developed his thinking about the symbolizing imagination, a precursor to contemplation, into a theory of contemplation itself, which for him occurs in its purest form as a manifestation of Reason. Coleridge is a particularly challenging figure because he was a thinker in process and something of an omnivore, a Renaissance man of the Romantic era. The dynamic quality of his thinking, the dark fluxion he pursued but ultimately unfixed by thought, and his extensive range of interests make a philosophical yet also multi-disciplinary approach to Coleridge essential. This book is the first collection to feature philosophers and intellectual historians writing on Coleridge's philosophy. This volume opens up a neglected aspect of the work of Britain's greatest philosopher-poet, his analysis of contemplation, which he considered the highest of human mental powers. Philosophers including Roger Scruton, David E. Cooper, Michael McGhee, Andy Hamilton, and Peter Cheyne contribute original essays on the philosophical, literary, and political implications of Coleridge's views. The volume is edited and introduced by Peter Cheyne, and Baroness Mary Warnock contributes a foreword. The chapters by philosophers are supported by new developments in philosophically minded criticism from leading Coleridge scholars in English departments, including Jim Mays, Kathleen Wheeler, and James Engell. They approach Coleridge as an energetic yet contemplative thinker concerned with the intuition of ideas and the processes of cultivation in self and society. Other chapters from intellectual historians and theologians, including Douglas Hedley, clarify the historical background and religious musings of Coleridge's thought regarding contemplation.

Matthew Zarnowiecki, 2014-02-05 In the latter half of the sixteenth century English poets and printers experimented widely with a new literary format the printed collection of lyric poetry They not only investigated the possibilities of working with a new medium but also wrote metaphors of human reproduction directly into their works In *Fair Copies* Matthew Zarnowiecki argues that poetic production was re envisioned during this period which was rife with models of copying and imitation to include reproduction as one of its inherent attributes Tracing the development of the English lyric during this crucial period *Fair Copies* incorporates a diverse range of cultural productions and reproductions from key poetic texts by Shakespeare Sidney Spenser Gascoigne and Tottel to legal breviaries visual representations of song midwives manuals and commonplace books Also included are fifteen facsimile reproductions of poems in early printed books with explanations and discussions of their importance Calling upon these diverse sources and examining lyric poems in their earliest manuscript and printed contexts Zarnowiecki develops a new reproductively centred method of reading early modern English lyric poetry *The Papers of the Bibliographical Society of America* Bibliographical Society of America, 2003

Coleridge's Ancient Mariner J. C. C. Mays,2016-10-27 This is the first book length study to read the Ancient Mariner as poetry in Coleridge s own

particular sense of the word Coleridge's complicated relationship with the Mariner as an experimental poem lies in its origin as a joint project with Wordsworth J C C Mays traces the changes in the several versions published in Coleridge's lifetime and shows how Wordsworth's troubled reaction to the poem influenced its subsequent interpretation This is also the first book to situate the Mariner in the context of the entirety of Coleridge's prose and verse now available in the Bollingen Collected edition and Notebooks that is not only in relation to other poems like The Ballad of the Dark Lady and Alice, but also to ideas in his literary criticism especially Biographia Literaria philosophy and theology Using a combination of close reading and broad historical considerations reception theory and book history Mays surveys the poem's continuing life in illustrated editions and educational textbooks its passage through the vicissitudes of New Criticism and critical theory and in a final chapter its surprising affinities with some experimental poems of the present time

Gender, Authorship, and Early Modern Women's Collaboration Patricia Pender, 2017-11-10 This book explores the collaborative practices both literary and material that women undertook in the production of early modern texts It confronts two ongoing methodological dilemmas How does conceiving women's texts as collaborations between authors readers annotators editors printers and patrons uphold or disrupt current understandings of authorship And how does reconceiving such texts as collaborative illuminate some of the unresolved discontinuities and competing agendas in early modern women's studies From one perspective viewing early modern women's writing as collaborative seems to threaten the hard won legitimacy of the authors we have already recovered from another developing our understanding of literary agency beyond capital A authorship opens the field to the surprising range of roles that women played in the history of early modern books Instead of trying to simply shift disaggregate or adjudicate between competing claims for male or female priority in the production of early modern texts Gender Authorship and Early Modern Women's Collaboration investigates the role that gender has played and might continue to play in understanding early modern collaboration and its consequences for women's literary history
