Textbook Of Intensive Care:

Textbook of Critical Care Yatin Mehta, 2015-08-31 Textbook of Critical Care is an extensive two volume guide to all aspects of critical care. The first volume covers systems of the human body in individual sections; the second volume continues to cover other vital topics for those working in an intensive care unit. The two volumes are subdivided into fourteen sections with 112 chapters in total. The book begins with general principles before covering cardiovascular, respiratory, renal and gastrointestinal systems as well as neurology and endocrinology. The post surgical critical care section includes a range of surgeries and organ transplants. Further topics include obstetric critical care, haematology, rheumatology, oncology and trauma with detailed advice on the design of and research in the ICU. With over 100 international contributors ensuring authoritative content throughout and full colour illustrations across 1500 pages, *Textbook of Critical Care* is a valuable resource for residents, intensivists and emergency medicine doctors.

Textbook of Critical Care, 2000 *Handbook of Critical and Intensive Care Medicine* Joseph Varon, 2016-06-02 The latest edition of this handbook is a concise yet comprehensive guide for attending physicians, fellows, residents and students who cover the ICU. The chapters follow an outline format and are divided by organ system including neurologic disorders and cardiovascular disorders and special topics such as environmental disorders, trauma and toxicology. The handbook includes thoroughly updated chapters from the previous edition alongside completely new material. Written by an authority in the field, the *Handbook of Critical and Intensive Care Medicine* Third Edition is a valuable one stop reference for every practitioner engaged in Critical Care Medicine across the world.

Textbook of Intensive Care D.R Goldhill, 1998-09-04 This book is a comprehensive but concise practical guide to modern intensive care practice. It covers the complete care of the patient in the ICU, stressing the multidisciplinary team approach that is central to modern practice. The text provides the reader with a discussion of the scientific principles underlying treatment with emphasis on the basic physiology and pharmacology of intensive care in addition to clinical management. Other topics covered in depth include resuscitation both before and after arrival in hospital and technical aspects including monitoring, ventilation and laboratory investigations. The problems of establishing, organising and running an ICU are reviewed as are care of relatives, follow up after ICU treatment and comparing and assessing outcome. Covering the core curriculum for the European Diploma in Intensive Care Medicine, *Textbook of Intensive Care* will be invaluable for doctors in speciality training but will also appeal to practising consultants, nurses, physiotherapists and other health professionals involved or interested in
