The Enlightened Judgments Ching Ming Chi The Sung Dynasty Collection:

The Enlightened Judgments, 1999-09-02 The first English translation of a selection of legal documents from Sung Dynasty China this work provides a fascinating look at the legal social and economic history of that era **The Burden of Female Talent** Ronald Egan, 2020-10-26 Widely considered the preeminent Chinese woman poet Li Qingzhao 1084-1150s occupies a crucial place in China's literary and cultural history She stands out as the great exception to the rule that the first rank poets in premodern China were male But at what price to our understanding of her as a writer does this distinction come The Burden of Female Talent challenges conventional modes of thinking about Li Qingzhao as a devoted but often lonely wife and later a forlorn widow By examining manipulations of her image by the critical tradition in later imperial times and into the twentieth century Ronald C Egan brings to light the ways in which critics sought to accommodate her to cultural norms molding her talent to make it compatible with ideals of womanly conduct and identity Contested images of Li including a heated controversy concerning her remarriage and its implications for her devotion to her first husband reveal the difficulty literary culture has had in coping with this woman of extraordinary conduct and ability The study ends with a reappraisal of Li's poetry freed from the autobiographical and reductive readings that were traditionally imposed on it and which remain standard even today **Enlightened Judgments, The, Ch'ing-ming Chi**, 1999-08-26 The first English translation of a selection of legal documents from Sung Dynasty China this work provides a fascinating look at the legal social and economic history of that era

Heaven Has Eyes Xiaoqun Xu, 2020-10-13 In Heaven Has Eyes Xiaoqun Xu provides a comprehensive yet concise history of Chinese law and justice from the imperial era to the post Mao era Xu addresses the evolution and function of law codes and judicial practices throughout China's long history and examines the transition from traditional laws and practices to modern ones in the twentieth century **Justice in Print: Discovering Prefectural Judges and Their**

Judicial Consistency in Late-Ming Casebooks Ka-Chai Tam, 2020-08-31 In Justice in Print Discovering Prefectural Judges and Their Judicial Consistency in Late Ming Casebooks Ka-chai Tam argues that the prefectural judge in the judiciary of the Ming dynasty 1368-1644 became crucial to upholding justice in Chinese society In light of two late Ming casebooks namely the Mengshui zhai cundu by Yan Junyan and the Zheyu xinyu by Li Qing Ka-chai Tam demonstrates that the late Ming judges handled their cases with a high level of consistency in judicial reasoning and practice in every type of case despite their differing regions and literary styles Equipped with relative institutional independence and growing professionalism they played an indispensable role in checking and guaranteeing the legal performance of their subordinate magistrates

Battlefronts Real and Imagined D. Wyatt, 2008-05-12 This collection examines the cultural and intellectual dimensions of war and its resolution between Han Chinese and the various ethnically dissimilar peoples surrounding them during the crucial middle period of Chinese history **The Cambridge History of China: Volume 5, Sung China, 960-1279 AD,**

Part 2 John W. Chaffee, Denis Twitchett, 2015-03-05 This is the second of two volumes on the Sung Dynasty which together

provide a comprehensive history of China from the fall of the Tang Dynasty in 907 to the Mongol conquest of the Southern Song in 1279. With contributions from leading historians in the field, Volume 5 Part Two paints a complex portrait of a dynasty beset by problems and contradictions but one which despite its military and geopolitical weakness was nevertheless economically powerful, culturally brilliant, socially fluid, and the most populous of any empire in global history to that point. In this much anticipated addition to the series, the authors survey key themes across ten chapters including government, economy, society, religion, and thought, to provide an authoritative and topical treatment of a profound and significant period in Chinese history.

The Beef Taboo in China Vincent Goossaert, 2025-02-28. Praise for the French edition: It will no longer be possible to discuss Chinese civilization without referring to this work, the foundation for a new vision of culture and religiosity in China. Scholars working on the comparative social role of food culture will also find something to draw on here. Archives de sciences sociales des religions. This book repays careful reading on many counts, including its ambitious scope, its wealth of vivifying detail, and its judicious analysis. It should be required reading for all those interested in traditional Chinese society and culture and their modern transformations, as well as those concerned with the history of food taboos in different contexts. They will be richly rewarded. Journal of Song Yuan Studies. The Beef Taboo in China explains how and why around the turn of the second millennium the Chinese determined that cattle should not be slaughtered or eaten. This taboo remained prevalent until the beginning of the twentieth century and is still observed by some today. Goossaert situates this prohibition within evolving Chinese attitudes toward animals and meat and juxtaposes the taboo with vegetarianism and other forms of meat ethics. He argues that the emergence of this specific practice must be understood in several contexts, notably a new agricultural economy and ecology in early modern times that protected plow cattle and marginalized pastures, a sacrificial reform that eliminated beef as the standard offering to gods and spirits, and the development of Daoist rituals, cults, and moral theology that tabooed beef and made this observance a linchpin of Chinese civilization.

True Crimes in Eighteenth-Century China Robert E. Hegel, 2011-12-01. The little examined genre of legal case narratives is represented in this fascinating volume, the first collection translated into English of criminal cases most involving homicide from late imperial China. These true stories of crimes of passion, family conflict, neighborhood feuds, gang violence, and sedition are a treasure trove of information about social relations and legal procedure. Each narrative describes circumstances leading up to a crime and its discovery, the appearance of the crime scene and the body, the apparent cause of death, speculation about motives and premeditation, and whether self defense was involved. Detailed testimony is included from the accused and from witnesses, family members, and neighbors, as well as summaries and opinions from local magistrates, their coroners, and other officials higher up the chain of judicial review. Officials explain which law in the Qing dynasty legal code was violated, which corresponding punishment was appropriate, and whether the sentence was eligible for reduction. These records began as reports from magistrates on homicide cases within their jurisdiction that were required by law to be tried first at the county

level then reviewed by judicial officials at the prefectural provincial and national levels with each administrator adding his own observations to the file Each case was decided finally in Beijing in the name of the emperor if not by the monarch himself before sentences could be carried out and the records permanently filed All of the cases translated here are from the Qing imperial copies most of which are now housed in the First Historical Archives Beijing

Political Communication in Chinese and European History, 800-1600 Hilde Weerdt, Franz-Julius Morche, 2025-10-01 Based on a collaboration between historians of Chinese and European politics Political Communication in Chinese and European History 800 1600 offers a first comprehensive overview of current research on political communication in middle period European and Chinese history The chapters present new work on the sources and processes of political communication in European and Chinese history partly through juxtaposing and combining formerly separate historiographies and partly through direct comparison Contrary to earlier comparative work on empires and state formation which aimed to explain similarities and differences with encompassing models and new theories of divergence the goal is to further conversations between historians by engaging regional historiographies from the bottom up
