

Conference and Summer Course Europeanisation of Administrative Law in the Member States Leiden Law School, The Netherlands

2-4 September 2019

In what ways and to which extent are the systems of national administrative law becoming Europeanised? What role do EU legal principles play in this process? Are EU legal principles smoothly absorbed in national law and practice, or do the principles encounter resistance? Which legal principles attract most attention from scholars with expertise in EU and/or domestic law? These and other questions will be discussed during the Conference and Summer Course in Leiden.

The Europeanisation Of Administrative Law Transforming National Decision Making Procedures:

The Impact of European Rights on National Legal Cultures Miriam Aziz, 2004-07 This book contributes to the debate about the impact of European Community Law on the national constitutional orders and cultures of the respective Member States The author examines the doctrine of sovereignty as a mechanism within which this impact may be best assessed and in particular how it underwrites the tension between European Union rights and the rights provided by the respective legal orders of the Member States In particular the book focuses on political social and civil rights drawing from T H Marshall s typology In endorsing an appropriate analytical framework the book challenges both existing law and secondary literature in order to argue that the terminology the concepts and the tools which are used to assess the impact of the EC law on the national constitutional orders are to be selected with great care This is particularly apposite given the complexity of constitutional diversity in terms of national constitutions and their reception of EC law It is also important because of the variety of approaches involved in the constitutional adjustment of the *acquis* of the Union within the context of the increasing drive to constitutionalisation of the Union on the one hand and enlargement on the other

EUROPEANISATION OF ADMINISTRATIVE LAW, 2017 The Transformation of Administrative Law in Europe Matthias Ruffert, 2007 This volume is a collection of the papers presented at the first kick off meeting in Dornburg near Jena Germany 26-28 May 2005 Foreword

The Europeanisation of Administrative Law Karl-Heinz Ladeur, 2002 This volume is based on a workshop held at the European University Institute Florence November 1999 The papers have since been revised and updated and focus on the growing impact of European law on the core elements of member states administrative law and especially on their different conception of procedure The first article confirms the American experience that autonomy of procedural rationality is not easy to picture and that implementing a similar procedure in Europe will face difficulty The other articles look at the procedures that exist in different member states and how a change in procedure could possibly undermine national law and procedure without replacing it with anything substantial European Administrative Law in the Constitutional Treaty Eva Nieto-Garrido, Isaac Martin Delgado, 2007-10-09 This book presents an integrated approach to general questions of European administrative law and offers some possible solutions to the problems which it poses the Treaty establishing a Constitution for Europe being the point of reference Under the Treaty general questions of administrative law are no longer addressed merely in a fragmented or incidental way but as a discipline that governs the exercise of sovereign powers by a supranational entity This calls for a detailed examination of the fields which comprise European administrative law and the book therefore examines in some detail the key areas of rulemaking powers and normative instruments the implications of the Charter of Fundamental Rights for European and national administrations administrative procedure and judicial protection within the European Union The Foreword to the book is written by Professor Carol Harlow

Evidence in European Asylum Procedures Ida Staffans, 2012-04-19 This book focuses on three European asylum procedures and the evidentiary

assessment carried out in these The interrelationship between these procedures and legal systems influencing them is explored and questions in relation to the harmonizing strivings of EU are posed

Handbook of Public Administration and Policy in the European Union M. Peter van der Hoek, 2005-06-13 The Handbook of Public Administration and Policy in the European Union focuses on the current state of the EU while also demonstrating how its current structure came into being and how it may change in the near future Although most existing literature is either policy oriented or institution oriented this textbook employs a different more comprehensive approach Not only does it analyze selected EU laws and most EU institutions it is also unique in that it brings together EU public administration EU institutions and most importantly EU policies into a comprehensive text Divided into five parts the book provides an overview of theory discourses on European integration followed by an analysis of the development of European organizations Part II explains the nature of the EU highlighting its institutions Part III addresses various dimensions of public administration followed by a review in Part IV of major EU policies including the Common Agricultural Policy The textbook concludes with a history of Economic and Monetary Union and a study of the European Central Bank and the euro

The Principle of Effective Legal Protection in Administrative Law Zoltán Szente, Konrad Lachmayer, 2016-08-05 This collection presents a comparative analysis of the principle of effective legal protection in administrative law in Europe It examines how European states consider and enforce the related requirements in their domestic administrative law The book is divided into three parts the first comprises a theoretical introductory chapter along with perspectives from International and European Law part two presents 15 individual country reports on the principle of effective legal protection in mostly EU member states The core function of the reports is to provide an analysis of the domestic instruments and procedures Adopting a contextual approach they consider the historical political and legal circumstances as well as analysing the relevant case law of the domestic courts the third part provides a comparative analysis of the country reports The final chapter assesses the influence and relevance of EU law and the ECHR The book thus identifies the most important trends and makes a valuable contribution to the debate around convergence and divergence in European national administrative systems The Open Access version of this book available at <https://www.taylorfrancis.com/books/principle-effective-legal-protection-administrative-law-zoltan-szente-konrad-lachmayer-e-10-4324-9781315553979> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license

The Max Planck Handbooks in European Public Law: Volume I: The Administrative State Sabino Cassese, Armin von Bogdandy, Peter Huber, 2017-07-24 The Max Planck Handbooks in European Public Law series describes and analyses the public law of the European legal space an area that encompasses not only the law of the European Union but also the European Convention on Human Rights and importantly the domestic public laws of European states Recognizing that the ongoing vertical and horizontal processes of European integration make legal comparison the task of our time for both scholars and practitioners it aims to foster the development of a specifically European legal pluralism and to contribute to the

legitimacy and efficiency of European public law The first volume of the series begins this enterprise with an appraisal of the evolution of the state and its administration with cross cutting contributions and also specific country reports While the former include among others treatises on historical antecedents of the concept of European public law the development of the administrative state as such the relationship between constitutional and administrative law and legal conceptions of statehood the latter focus on states and legal orders as diverse as e g Spain and Hungary or Great Britain and Greece With this the book provides access to the systematic foundations pivotal historic moments and legal thought of states bound together not only by a common history but also by deep and entrenched normative ties for the quality of the *ius publicum europaeum* can be no better than the common understanding European scholars and practitioners have of the law of other states An understanding thus improved will enable them to operate with the shared skills knowledge and values that can bring to fruition the different processes of European integration

The Illusion of Accountability in the European Union Sverker Gustavsson, Christer Karlsson, Thomas Persson, 2009-09-11 This book examines accountability in the EU from different perspectives and considers whether EU citizens have real opportunities for holding decision makers accountable This book critically analyses five arguments which claim there are sufficient means for holding decision makers to account in the Union The main conclusion is that the current institutional set up and practice of decision making in the EU is one that merely creates an illusion of accountability Using a strict framework focusing on the difference between formal mechanisms and actual opportunities for accountability this highly coherent volume will be of interest to students and scholars of European politics especially those interested in the democratic foundations of the European political system Chapter 1 of this book is freely available as a downloadable Open Access PDF under a Creative Commons Attribution Non Commercial No Derivatives 3.0 license [https://s3-us-west-2.amazonaws.com/tandfbis-rt-files/docs/Open Access Chapters 9780415480994_oachapter1.pdf](https://s3-us-west-2.amazonaws.com/tandfbis-rt-files/docs/Open%20Access%20Chapters%209780415480994_oachapter1.pdf)
