The Evolution Of Christology:

The Evolution of Christology Thor Hall, 1982 **The Evolution of New Testament Christology** Charles Bray Williams, 1928 **The Origin of Christology** Charles Francis Digby Moule, 1977 This book is about the processes by which Christians of the first century came to understand Jesus as they did Some writers represent these as evolutionary as though a merely human teacher came to be thought of as a divine figure a new species so to speak Professor Moule suggests that development is a preferable analogy implying not the evolution of a new species of figure but the development of understanding of what was there in Jesus from the beginning The author re examines four familiar characterizations of Jesus as the Son of Man the Son of God Christ and Lord then he considers the reflexion in the Pauline epistles of an experience of Jesus as more than individual In his concluding chapter Professor Moule speculates in dialogue with Dr Haddon Willmer about the implications of his findings for Christian doctrine The book which earned for the author the Collins Biennial Religious Book Award in 1977 embodies his 1974 Moorhouse Lectures in Melbourne Australia It was first published in June 1977 *The Development of Christology during the First Hundred Years* Charles H. Talbert, 2011-06-22 Entering the debate about the development of Christology among Jesus earliest followers this volume critiques both the traditional evolutionary view that posited an elementary early Jewish Christology that developed in complexity as it was increasingly Hellenized and the more recent attempt to see a full orb'd Christology both as early and as Jewish not Hellenistic in its categories It contends that during the first 100 years Jesus followers employed four models from their milieu Jewish and Greco Roman both to understand and to communicate their Christologies These models were appropriated because they were appropriate vehicles for expressing the impact of Jesus on them past present and future **A Critical History of the Evolution of Trinitarianism** Levi Leonard Paine, 1900 **Christ In Evolution** Ilia Delio, 2010 *Christian Theology* Alister E. McGrath, 2011-01-14 Alister McGrath's *Christian Theology An Introduction* is one of the most internationally acclaimed and popular Christian theology textbooks in use today This 5th edition has been completely revised and now features new and extended material numerous additional illustrations and companion resources ensuring it retains its reputation as the ideal introduction to Christian theology Fully updated 5th edition of the bestselling textbook incorporating expanded material numerous student features and new illustrations Features new sections on Copernicanism and Darwinism Includes extended discussions of Augustine's doctrine of creation Trinitarian theologies of religion and the relation of Christianity to other faiths May be used as a stand alone volume or alongside the *Christian Theology Reader* 4th edition for a complete overview of the subject Retains the chapter structure of the 4th edition ensuring comparability with earlier editions and courses based on these Accompanied by a revised instructor's website featuring expanded resources including study questions and answers visit www.wiley.com/go/mcgrath for more details and to register for access *The Son of God* Martin Hengel, 2007-02-01 This work significantly advances the critical discussion of New Testament Christology Hengel examines the titles Son and

God He points toward an inner consistency and dynamic in the development of the doctrine of Christ in primitive Christianity as the movement proceeded from the Gospels account of the death of Jesus to the high Christology present in the Pauline writings Historical scholarship and theological one might even say dogmatic questions must not stand in unresolved contradiction On the contrary the historian misunderstands the nature of New Testament Christology if he does not grasp its theological concern and its inner consistency while a dogmatic approach that does not take seriously the historical course of Christianity is in danger of becoming no more than abstract speculation It is therefore vitally important to unite historical research and the theological search for truth

Original Sin and the Evolution of Sexual Difference Megan Loumagne Ulishney, Megan Loumagne, 2022 Original Sin and the Evolution of Sexual Difference re examines Christian thinking about original sin and sexual difference in conversation with recent developments in evolutionary biology and feminist philosophy and theology

The Expression Son of Man and the Development of Christology Mogens Mueller, 2014-10-20 Son of Man is practically the only self designation employed by Jesus himself in the gospels but is used in such a way that no hint is left of any particular theological significance Still during the first many centuries of the church the expression as it was reused was given content first literally as signifying Christ's human nature Later Son of Man was thought to be a christological title in its own right Today many scholars are inclined to think that in an original Aramaic of an historical Jesus it was little more than a rhetorical circumlocution referring to the one speaking Mogens Mueller's The Expression Son of Man and the Development of Christology A History of Interpretation is the first study of the Son of Man trope which traces the history of interpretation from the Apostolic Fathers to the present concluding that the various interpretations of this phrase reflect little more than the various doctrinal assumptions held by its interpreters over centuries

Christology in the Making James D. G. Dunn, 1996 This excellent study of the origins and early development of Christology by James D G Dunn clarifies in rich detail the beginnings of the full Christian belief in Christ as the Son of God and incarnate Word By employing the exegetical methods of historical context of meaning and conceptuality in transition Dunn illumines the first century meaning of key titles and passages within the New Testament that bear directly on the development of the Christian understanding of Jesus

From Jewish Prophet to Gentile God Maurice Casey, 1991 Based on the 1985 Cardbury Lectures delivered at the University of Birmingham England this book describes and explains the origins and development of New Testament christology Using both original sources and established and recent scholarship Casey presents a convincing argument to support his christological framework He traces the evolution through the Pauline epistles and the Gospels of the historical figure of Jesus the Aramaic speaking Jew to his identification as Jesus Christ the Messiah and Son of God The declaration of his deity in John's Gospel is related to the Gentile self identification of the Johannine community This is the first book in the field of Christian origins to make serious analytical use of the concept of identity It includes new discussion and explanation of early Christian belief in the Resurrection the Virgin birth and other elements of Christian dogma Lucid and

cogently organised this book's conclusions are both logical and startling Casey's work represents a major advance in the study of christology Pillars in the History of Biblical Interpretation, Volume 3 Stanley E. Porter, Zachary K.

Dawson, 2021-06-07 This third volume like its predecessors adds to the growing body of literature concerned with the history of biblical interpretation With eighteen essays on nineteen biblical interpreters volume 3 expands the scope of scholars both traditional and modern covered in this now multivolume series Each chapter provides a biographical sketch of its respective scholar's an overview of their major contributions to the field explanations of their theoretical and methodological approaches to interpretation and evaluations and applications of their methods By focusing on the contexts in which these scholars lived and worked these essays show what defining features qualify these scholars as pillars in the history of biblical interpretation While identifying a scholar as a pillar is somewhat subjective this volume defines a pillar as one who has made a distinctive contribution by using and exemplifying a clear method that has pushed the discipline forward at least within a given context and time period This volume is ideal for any class on the history of biblical interpretation and for those who want a greater understanding of how the field of biblical studies has developed and how certain interpreters have played a formative role in that development History of the Development of the Doctrine of the Person of Christ Isaak August

Dorner, 1882 *Christ and Evolution* Celia Deane-Drummond, 2009 The figure of Christ is at the heart of Christian faith and self understanding whether conservative or liberal In this volume widely acclaimed theologian Celia Deane Drummond sets out to develop an understanding of Christ that is far more conscious of the evolutionary history of humanity and current evolutionary theories about the natural world It argues that the concepts of wisdom and wonder have special roles in both theology and science and can point to an integrated inclusive spirituality and a fuller vision of life and the universe Book jacket *Theology and Ecology in Dialogue* Dermot A. Lane, 2020-05-21 This book opens with an examination of the

meaning of the innocent sounding category of Integral Ecology in contemporary thought and its significance for theology today According to well known Irish theologian Dermot Lane Integral Ecology changes everything In this book he focuses on the neglected implications of Integral Ecology for systematic theology Ecology challenges theology to reimagine who we are who the Spirit of God is who Christ is where creation is going and what is the role of liturgy in society all in the glare of the ecological crisis This book also mines the theology within and behind the ground breaking encyclical Laudato Si On Care for our Common Home Until fairly recently climate change was left to the scientists politicians and activists More is needed Now is the time to hear voice of religion in that debate in the public forum with a view to initiating new transformative practices in society in politics and in religions This new book will be of interest to activists politicians priests christian educators and theologians The book is born out of the conviction that climate change is not just one more problem to be addressed by politicians rather it is the challenge facing humanity in the 21st century and as such is the challenge underlying all other challenges at this moment in history **The Transparent Event** John P. Cock, 2001-06 from endorsements on back cover A

Williams,2019-01-29 Portraying themselves as challenging blind religious dogma with evidence led skepticism the neo atheist movement claims that the New Testament contains unreliable tales about a mythical figure who far from being the resurrected Lord of life may not even have lived This comprehensive critique documents the falsehood of these neo atheist claims correcting their historical and philosophical mistakes to show how we can get at the truth about the historical Jesus
