The Evolution Of English Collecting The Reception:

The Evolution of English Collecting Edward Chaney, 2003 This book surveys for the first time the evolution of English collecting Edward Chaney begins with the background history of European collecting focusing in particular on Italy's formative role in this phenomenon then sets English collecting in the sixteenth and seventeenth centuries in context and draws together a unique collection of essays on the subject The book deals with issues ranging from English collecting at the time of the Reformation with all the tension that phenomenon produced in England's relationships with Rome to the early Cecils and conflicts between English Protestantism and Catholic Italianate taste The lives and achievements of great collectors and patrons are examined and specific studies of the evolution of collections of paintings sculptures and prints in England are included as well Publisher **England and the Italian Renaissance** John R. Hale, 2009-02-17 This fourth edition of Sir John Hale's classic history of England and the Italian Renaissance includes a detailed introduction by Edward Chaney surveying scholarly developments since the book was first published Fourth edition of Sir John Hale's classic history of England and the Italian Renaissance first published in 1954 The book's focus on fundamental issues and basis in little read primary sources ensures that it endures as an important contribution to historical scholarship Clear chronological narrative beautifully written Provides essential understanding of the period illuminating both British and Italian cultural history The fourth edition includes a new introduction by Edward Chaney who is an expert on Anglo Italian cultural relations Chaney surveys the scholarship of the last 50 years and supplies an up to date bibliography Complete Gentlemen Richard Ansell, 2022-01-06 This is the first study to look beyond the Italian Grand Tour to the wider culture of educational travel that thrived among British and Irish landowners between 1650 and 1750 Based on deep archival research it explores the meanings of continental travel for social mobility elite formation landed identity masculinity and Englishness **Defining the Holy** Sarah Hamilton, 2016-12-05 Holy sites both public churches monasteries shrines and more private domestic chapels oratories populated the landscape of medieval and early modern Europe providing contemporaries with access to the divine These sacred spaces thus defined religious experience and were fundamental to both the geography and social history of Europe over the course of 1 000 years But how were these sacred spaces both public and private defined How were they created used recognised and transformed And to what extent did these definitions change over the course of time and in particular as a result of the changes wrought in the sixteenth and seventeenth centuries Taking a strongly interdisciplinary approach this volume tackles these questions from the point of view of archaeology architectural and art history liturgy and history to consider the fundamental interaction between the sacred and the profane Exploring the establishment of sacred space within both the public and domestic spheres as well as the role of the secular within the sacred sphere each chapter provides fascinating insights into how these concepts helped shape and were shaped by wider society By highlighting these issues on a European basis from the medieval period through the age of the reformations these essays demonstrate the

significance of continuity as much as change in definitions of sacred space and thus identify long term trends which have hitherto been absent in more limited studies As such this volume provides essential reading for anyone with an interest in the ecclesiastical development of western Europe from the thirteenth to the eighteenth centuries *Gendered Touch*

,2022-06-13 This book aims at exploring how practical expertise textual learning and the gendered bodies intersected with the production of knowledge in early modern Europe Gendered touch looks at both how representations of gendered bodies contributed to the production of knowledge and at how practice itself was gendered By exploring new archival material and by reading anew printed sources the book inquiries about how knowledge was produced translated appropriated and transmitted among different kinds of actors both women and men such as craftspeople physicians alchemists apothecaries music theorists natural philosophers and natural historians The Elizabethan World Susan Doran,Norman

Jones,2014-09-15 This comprehensive and beautifully illustrated collection of essays conveys a vivid picture of a fascinating and hugely significant period in history Featuring contributions from thirty eight international scholars the book takes a thematic approach to a period which saw the defeat of the Spanish Armada the explorations of Francis Drake and Walter Raleigh the establishment of the Protestant Church the flourishing of commercial theatre and the works of Edmund Spenser Philip Sidney and William Shakespeare Encompassing social political cultural religious and economic history and crossing several disciplines The Elizabethan World depicts a time of transformation and a world order in transition Topics covered include central and local government political ideas censorship and propaganda parliament the Protestant Church the Catholic community social hierarchies women the family and household popular culture commerce and consumption urban and rural economies theatre art architecture intellectual developments exploration and imperialism Ireland and the Elizabethan wars The volume conveys a vivid picture of how politics religion popular culture the world of work and social practices fit together in an exciting world of change and will be invaluable reading for all students and scholars of the Elizabethan period **Everyday Objects** Tara Hamling,Catherine Richardson,2016-12-14 This book is about the objects

people owned and how they used them Twenty three specially written essays investigate the type of things that might have been considered everyday objects in the medieval and early modern periods and how they help us to understand the daily lives of those individuals for whom few other types of evidence survive for instance people of lower status and women of all status groups Everyday Objects presents new research by specialists from a range of disciplines to assess what the study of material culture can contribute to our understanding of medieval and early modern societies Extending and developing key debates in the study of the everyday the chapters provide analysis of such things as ceramics illustrated manuscripts pins handbells carved chimneypieces clothing drinking vessels bagpipes paintings shoes religious icons and the built fabric of domestic houses and guild halls These things are examined in relation to central themes of pre modern history for instance gender identity space morality skill value ritual use belief public and private behaviour continental influence materiality

emotion technical innovation status competition and social mobility This book offers both a collection of new research by a diverse range of specialists and a source book of current methodological approaches for the study of pre modern material culture The multi disciplinary analysis of these everyday objects by archaeologists art historians literary scholars historians conservators and museum practitioners provides a snapshot of current methodological approaches within the humanities Although analysis of material culture has become an increasingly important aspect of the study of the past previous research in this area has often remained confined to subject specific boundaries This book will therefore be an invaluable resource for researchers and students interested in learning about important new work which demonstrates the potential of material culture study to cut across traditional historiographies and disciplinary boundaries and access the lived experience of individuals in the past

Malcolm Smuts, 2016-06-30 The Oxford Handbook of the Age of Shakespeare presents a broad sampling of current historical scholarship on the period of Shakespeare's career that will assist and stimulate scholars of his poems and plays Rather than merely attempting to summarize the historical background to Shakespeare individual chapters seek to exemplify a wide variety of perspectives and methodologies currently used in historical research on the early modern period that can inform close analysis of literature Different sections examine political history at both the national and local levels relationships between intellectual culture and the early modern political imagination relevant aspects of religious and social history and facets of the histories of architecture the visual arts and music Topics treated include the emergence of an early modern public sphere and its relationship to drama during Shakespeare's lifetime the role of historical narratives in shaping the period's views on the workings of politics attitudes about the role of emotion in social life cultures of honour and shame and the rituals and literary forms through which they found expression crime and murder and visual expressions of ideas of moral disorder and natural monstrosity in printed images as well as garden architecture

The Politics of Female Households: Ladies-in-waiting across Early Modern Europe, 2013-10-24 The Politics of Female Households is the first collection that seeks to integrate ladies in waiting into the master narrative of early modern court studies Presenting evidence and analysis of the multifarious ways in which women above stairs shaped the European courts of the sixteenth and seventeenth centuries it argues for a re assessment of their political influence The cultural agency of ladies in waiting is viewed in the reflection of portraiture pamphlets and masques their political dealings and patronage are revealed through analysis of letters family networks career patterns gift exchange and household structures as well as their activities in the fields of intelligence gathering and espionage By concentrating on a previously neglected area of female agency this collection demonstrates clearly that the political climate of Europe was often shaped outside the male dominated institutions of government and administration Contributors include Helen Graham Matheson Hannah Leah Crumm Katrin Keller Vanessa de Cruz Birgit Houben Dries Raeymaekers Janet Ravenscroft Una McIlvenna Rosalind K Marshall Oliver Mallick Cynthia Fry Nadine Akkerman Sara J
