The Exploring Spirit America And The World Then And Now:

The Exploring Spirit Daniel Joseph Boorstin, 1976 **A Certain Tendency of the Hollywood Cinema, 1930-1980**

Robert B. Ray, 2020-07-21 Robert B Ray examines the ideology of the most enduringly popular cinema in the world the Hollywood movie Aided by 364 frame enlargements he describes the development of that historically overdetermined form giving close readings of five typical instances Casablanca It s a Wonderful Life The Man Who Shot Liberty Valance The Godfather and Taxi Driver Like the heroes of these movies American filmmaking has avoided commitment in both plot and technique Instead of choosing left or right avant garde or tradition American cinema tries to have it both ways Although Hollywood s commercial success has led the world audience to equate the American cinema with film itself Hollywood filmmaking is a particular strategy designed to respond to specific historical situations As an art restricted in theoretical scope but rich in individual variations the American cinema poses the most interesting question of popular culture Do dissident forms have any chance of remaining free of a mass medium seeking to co opt them Engagement with the Past William Palmer, 2021-10-21 Arthur M Schlesinger Jr John Hope Franklin Daniel Boorstin C Vann Woodward Edmund S Morgan Barbara Tuckman Eric Hobsbawm Hugh Trevor Roper Lawrence Stone aside from carrying the distinction as some of the most successful and well respected historians of the twentieth century these scholars found their lives and careers evolving amid some of the world s pivotal historical moments Dubbed the World War II Generation the twenty two English and American historians chronicled by William Palmer grew up in the aftermath of World War I went to college in the 1930s as the threats of the Great Depression Hitler and Communism loomed over them saw their careers interrupted by World War II and faced the prospect of nuclear annihilation They gained from their experiences the perspective and insight necessary to write definitive histories on topics ranging from slavery to revolution Engagement with the Past offers biographies of these individuals in the context of their generation s intellectual achievement Based upon extensive personal interviews and careful reading of their work Engagement with the Past is a fascinating behind the scenes look at a generation of historians and how they helped record and shape modern history The Future of Housing Markets Leland S. Burns, Leo Grebler, 2012-12-06 This book s title betrays at once that it belongs in the forecast literature Peering into the future is a notoriously treacherous venture Nevertheless it has become a practice endemic to the business and government worlds as well as to academia especially economics We like to believe that the enormous growth of forecasting in the face of some disappointments reflects real needs of decision makers as well as the general public s well warranted curiosity about the future Fashion alone could hardly explain the sustained increase in the market for forecast services during the past few decades Some professionals insist on fine distinctions between the forecast the projection the prediction and the prophecy The differences are more semantic than real as the mandatory resort to Webster confirms The entry forecast includes references to prediction and prophecy without differentiation while projection is defined among other things as prediction or advance estimate We use

mainly the term projections because v PREFACE vi much of our statistical research is based on forward estimates of population and households by the U S Bureau of the Census which the bureau itself the greatest fountain of data in the world records as projections

The Daniel J. Boorstin Reader Daniel Joseph Boorstin,1995 Pulitzer Prize winning author Daniel Boorstin has spent a lifetime exploring facets of the American experience This new addition to the Modern Library is an omnibus collection drawn from his many books including the monumental trilogy *The Americans*

Dominion from Sea to Sea Bruce Cumings,2009-11-17 America is the first world power to inhabit an immense land mass open at both ends to the world's two largest oceans the Atlantic and the Pacific This gives America a great competitive advantage often overlooked by Atlanticists whose focus remains overwhelmingly fixed on America's relationship with Europe Bruce Cumings challenges the Atlanticist perspective in this innovative new history arguing that relations with Asia influenced our history greatly Cumings chronicles how the movement westward from the Middle West to the Pacific has shaped America's industrial technological military and global rise to power He unites domestic and international history international relations and political economy to demonstrate how technological change and sharp economic growth have created a truly bicoastal national economy that has led the world for more than a century Cumings emphasizes the importance of American encounters with Mexico the Philippines and the nations of East Asia The result is a wonderfully integrative history that advances a strong argument for a dual approach to American history incorporating both Atlanticist and Pacificist perspectives
