The Enigma of Anna O. Melinda Given Guttman, Bertha Pappenheim, 2001 Bertha Pappenheim became a legend twice first in Vienna under the pseudonym Anna O when she cured herself of hysterical symptoms by telling fairy tales which she termed the talking cure upon which Sigmund Freud based his theory of psychoanalysis and then in Germany as the founder of the first Jewish feminist movement **Let Me Continue to Speak the Truth** Elizabeth Loentz, 2007 In her first five chapters Loentz examines how Pappenheim engaged in words and deeds with the key political social and cultural issues concerning German Jewry in the early decades of the twentieth century the status of the Yiddish language Zionism the conversion epidemic responses to the plight of Eastern European Jews and Jewish spirituality Loentz shows how in Pappenheim's unique approach to each of these issues she balanced allegiances to feminism the Jewish religion and German culture **BOOK JACKET** The Oxford Encyclopedia of Women in World History Bonnie G. Smith, 2008 The Encyclopedia of Women in World History captures the experiences of women throughout world history in a comprehensive 4 volume work Although there has been extensive research on women in history by region no text or reference work has comprehensively covered the role women have played throughout world history The past thirty years have seen an explosion of research and effort to present the experiences and contributions of women not only in the Western world but across the globe Historians have investigated women's daily lives in virtually every region and have researched the leadership roles women have filled across time and region They have found and demonstrated that there is virtually no historical social or demographic change in which women have not been involved and by which their lives have not been affected The Oxford Encyclopedia of Women in World History benefits greatly from these efforts and experiences and illuminates how women worldwide have influenced and been influenced by these historical social and demographic changes The Encyclopedia contains over 1 250 signed articles arranged in an A Z format for ease of use The entries cover six main areas biographies geography and history comparative culture and society including adoption abortion performing arts organizations and movements such as the Egyptian Uprising and the Paris Commune women's and gender studies and topics in world history that include slave trade globalization and disease With its rich and insightful entries by leading scholars and experts this reference work is sure to be a valued go to resource for scholars college and high school students and general readers alike **The Unknown History of Jewish Women Through the Ages** Rachel Elior, 2023-05-22 The Unknown History of Jewish Women On Learning and Illiteracy On Slavery and Liberty is a comprehensive study on the history of Jewish women which discusses their absence from the Jewish Hebrew library of the People of the Book and interprets their social condition in relation to their imposed ignorance and exclusion from public literacy The book begins with a chapter on communal education for Jewish boys which was compulsory and free of charge for the first ten years in all traditional Jewish communities The discussion continues with the striking absence of any communal Jewish education for girls until the late nineteenth and early twentieth century and the

implications of this fact for twentieth century immigration to Israel 1949 1959 The following chapters discuss the social cultural and legal contexts of this reality of female illiteracy in the Jewish community a community that placed a supreme value on male education The discussion focuses on the patriarchal order and the postulations rules norms sanctions and mythologies that in antiquity and the Middle Ages laid the religious foundations of this discriminatory reality **The Secret Mind of Bertha Pappenheim** Gabriel Brownstein, 2024-04-16 The story of a patient who changed the world and the mystery of her illness In 1880 young Bertha Pappenheim got strangely ill she lost her ability to control her voice and her body She was treated by Sigmund Freud's mentor Josef Breuer who diagnosed her with hysteria Together Pappenheim and Breuer developed what she called the talking cure talking out memories to eliminate symptoms Freud renamed her Anna O and appropriated her ideas to form the theory of psychoanalysis All his life he told lies about her For over a century writers have argued about her illness and cure In this unusual work of science history and psychology Brownstein does more than describe the controversies surrounding this extraordinary woman He brings Pappenheim to life a brilliant feminist thinker a crusader against human trafficking and a pioneer in the hustling and heady world of nineteenth century Vienna At the same time he tells a parallel story that is playing out in leading medical centers today about patients who suffer symptoms very much like Pappenheim's and about the doctors who are trying to cure them the story of the neuroscience of a condition now called FND The Secret Mind of Bertha Pappenheim argues for the healing art of listening and describes the new talking cures emerging out of neuroscience today *Women and Madness* Phyllis Chesler, 2018-09-04 Feminist icon Phyllis Chesler's pioneering work *Women and Madness* remains startlingly relevant today nearly fifty years since its first publication in 1972 With over 2.5 million copies sold this landmark book is unanimously regarded as the definitive work on the subject of women's psychology Now back in print this completely revised and updated edition adds perspectives on eating disorders postpartum depression biological psychology important feminist political findings female genital mutilation and more

Nothing Happened Darcy Buerkle, 2013-12-13 Charlotte Salomon's 1917-43 fantastical autobiography *Life or Theater* consists of 769 sequenced gouache paintings through which the artist imagined the circumstances of the eight suicides in her family all but one of them women But Salomon's focus on suicide was not merely a familial idiosyncrasy *Nothing Happened* argues that the social history of early twentieth century Germany has elided an important cultural and social phenomenon by not including the story of German Jewish women and suicide This absence in social history mirrors an even larger gap in the intellectual history of deeply gendered suicide studies that have reproduced the notion of women's suicide as a rarity in history *Nothing Happened* is a historiographic intervention that operates in conversation and in tension with contemporary theory about trauma and the reconstruction of emotion in history **Psychoanalysis, Intersubjective Writing, and a Postmaterialist Model of Mind** Dan Gilhooley, Frank Toich, 2019-09-23 In this in depth and unique collaboration between a patient and his psychoanalyst *Psychoanalysis Intersubjective Writing and a Postmaterialist Model of*

Mind I Woke Up Dead examines the unconscious mind by analysing the patient's novel written during his treatment as the focus. Using the patient's creative writing and their intersubjective relationship as evidence, Dan Gilhooley and Frank Toich show how psychoanalysis fits within a postmaterialist model of mind. In this ground-breaking exploration, Gilhooley and Toich together demonstrate how a nonlocal unconscious can reshape the psychoanalytic conception of the mind. Split into four parts: Intersubjective Quantum History and Collaboration, Dan introduces three themes in the first recovery from death: the intersubjective nature of therapeutic work and the role of creative imagination, combining these themes with analysis of Frank's work and short related stories from his own life. Part II Quantum introduces the concept of nonlocality to describe the mind and draws on the appearance of quantum physics in Frank's science fiction before moving onto Part III History, which examines the emergence of psychoanalysis out of animal magnetism, looking at rapport, telepathy and love in psychotherapy. Finally, Collaboration discusses their ongoing psychotherapeutic experiment, the role of imagination, dissociation and the cosmic mind in psychological growth. Interweaving creative writing, psychoanalytic theory and real life stories, the book recontextualizes the history and future of psychoanalysis. Due to its multidisciplinary nature, this book will appeal to psychotherapists and psychologists in practice and in training. It would also be a vital resource for academics and students of counseling, consciousness studies, psychoanalysis, psychotherapy and psychology.

The Culture of Confession from Augustine to Foucault Chloe Taylor, 2010-05-26 Drawing on the work of Foucault and Western confessional writings, this book challenges the transhistorical and commonsense views of confession as an innate impulse resulting in the psychological liberation of the confessing subject. Instead, confessional desire is argued to be contingent and constraining, and alternatives to confessional subjectivity are explored.
