character with the sea Lisbon is a city of steep inclines and complicated unsymmetrical streets that criss cross the hills only in the Baixa area near the river and in the more modern northern part of the city does any form of a grid system appear It has enjoyed a political history that has directed Portugal's focus more overseas than inland towards continental Europe in part because of Spain's geographical position Thus the city has been stretched in one direction toward Brazil and in another toward the Cape of Good Hope and from there to Asia and the East Beginning with its earliest inhabitants Jack traces the city's life through its imperial success in the sixteenth century and the devastating earthquake that humbled the city and shocked Europe in 1755 to its current position as a vibrant and successful European capital Lisbon's romantic atmosphere has captured the imaginations of foreigners through the ages Poets writers and musicians have all drawn inspiration from different parts of Lisbon This sensitive exploration of the city's many aspects draws out its cosmopolitan nature as well as its colourful culture and self image and brings us closer to understanding its true spirit Engaging and accessible this book will appeal to Lisbon's many visitors as well as anyone interested in European history Alexa Hampton Alexa Hampton,2023-10-03 From Alexa Hampton one of today's greatest interior designers and owner of Mark Hampton LLC comes a beautifully photographed memoir about her journey into design and the inspirations that shaped her iconic style The anatomies of my chosen surrounding are rich with meaning authentic and borrowed and are a snapshot or many snapshots of a lifetime spent in the world of design In her newest book Alexa Hampton takes you on a journey through her life's work her beautifully appointed pre war apartment on 59th street in Manhattan She highlights the art textiles and objects in her spaces along with the design and fashion tastemakers who inspired their use In doing so she acknowledges some of the big movements auctions and people that rocked the world of design and made an indelible mark on her An intimate look into Alexa's personal design process including the countless updates and redecorations of her own home this book is a personal history of interior design and a love letter to an iconic home **Sintra** Malcolm Jack,2002 Sintra is a unique and fantastic place It is a place to be visited and explored time and time again both on account of its magnificent natural scenery an alpine setting in the south of Portugal and its rich history entwined with that of the Portuguese Royal family Sintra A Glorious Eden evokes the spirit of this magical place a cool sanctuary for the monarchy from the overwhelming heat of the city of Lisbon The reader is introduced to the historical and literary background to what has become a symbol of Portuguese romanticism at home and abroad *Cultural Landscape in Practice* Giuseppe Amoruso,Rossella Salerno,2019-02-13 This book approaches cultural landscape as a driver for societal challenges economic development social inclusion place assessment and heritage conservation It explores issues stemming from the relation between conservation and emergencies and identifies descriptive tools for conveying knowledge and generating new expertise heritage skills seismic culture and social resilience The documentation of landscapes due in part to new technologies increasingly involves integrated methodologies and graphic outcomes such as Heritage BIM advanced 3D modeling and immersive environments According to recent

UNESCO recommends the process of mapping places is a necessary prerequisite for design action and also includes the emotional and perceptive dimension so as to represent space through visual thought and produce graphic materials. The chapters presented here will ultimately support efforts to overcome the emergency phase of reconstruction after natural disasters and by exploring relevant issues in recent studies will describe emerging tools that can help inspire practices that concern not only agrarian and urban but also historic urban landscapes. The work also presents planning tools to help preserve the integrity and authenticity of urban heritages. The book will benefit all scholars and practitioners who are involved in the process of understanding designing and transforming places and will foster an international exchange of research case studies and best practices to confront the practical challenges involved in keeping cultural landscapes alive.
