Social Change And Womens Reproductive Health Care:

Social Change and Women's Reproductive Health Care Nada Logan Stotland, 1988 Changing attitudes and social behavior as well as rapid technological progress are having great impact on women's reproductive health care. In addition to addressing the clinical implications of these new issues, this volume provides a useful and concise text for practitioners of obstetrics and gynecology. Because it deals with the ubiquitous emotional aspects of reproductive health care, it will also be of interest to nonspecialists and interested lay readers. **Health Care for Women** Loretta D. Ulincy, 1993 Marketing

Public Health: Strategies to Promote Social Change Michael Siegel, Lynne Doner Lotenberg, 2006-12-21 **Thirty Years of Reform and Social Changes in China** Qiang Li, 2010-08-03 *Thirty Years of Reform and Social Changes in China* is translated from the original Chinese to provide a look into how scholars in China have been assessing their country's recent societal and political history. This volume and the others in the SSRC series provide western scholars with an accessible English language look at the state of current scholarship in China and as such does not simply provide information for the direct study of socio-political issues but also for meta-level analysis of how the domestic scholarship in China is developing and assessing the interplay of the country's political and economic reforms with the society and daily life of its people.

Women's Sexual and Reproductive Health Karen J. Leong, Kathy Nakagawa, Aggie J. Yellow Horse, 2024-07-22 *Women's Sexual and Reproductive Health* addresses the sexual and reproductive health needs of Asian American Native Hawaiian and Pacific Islander AANHPI women from a structural and intersectional perspective. AANHPI women in the United States have often been grouped together due to their race and gender regardless of their specific communities' diverse histories with the United States and different educational and economic opportunities. The authors argue that AANHPI women are misunderstood by health professionals and researchers and foregrounds AANHPI women's experiences to demonstrate the challenges they face when seeking health care. The book highlights the diversity of AANHPI women by drawing on their first-hand experiences and argues for the disaggregation of health data on AANHPI women. *Women's Sexual and Reproductive Health* is of value to college classrooms that address racial disparities, health disparities, and women's experiences as well as for health care professionals. **Evaluating Women's Health Messages** Roxanne Louiselle Parrott, Celeste Michelle

Condit, 1996-02-01 The increasing attention placed on women's reproductive health issues in recent years has produced a corresponding interest in the role that communication plays from promoting better health care to fostering greater well-being. *Evaluating Women's Health Messages* is the first systematic examination of women's health communication. Compiling the works of over 30 contributors, editors Roxanne Louiselle Parrott and Celeste Condit explore the various forms health messages take: medical, social, scientific, and public, and the ways in which they compare with and contradict each other. The book is at once groundbreaking and comprehensive, examining the range of health issues from political, historical, technological, social, support, and feminist perspectives all within the broad framework of communication. With two chapters

on each topic the book provides a variety of perspectives on such issues as abortion infertility drug and alcohol use in pregnancy childbirth prenatal care AIDS breast cancer reproductive technologies menstruation menopause and hysterectomy Evaluating Women s Health Messages is a vital tool for every professional interested in women s health concerns as well as students taking courses in health communication woman s health public health sociology of health health education and gender studies
