Seminar,2002 The essays of this volume result of an interdisciplinary panel held at an IATS conference in Leyden 2000 attempt to document and interpret the ways in which issues of Identity relate to notions of Territory in Tibet and the Himalayas *Proceedings of the Tenth Seminar of the IATS, 2003. Volume 2: Tibetan Borderlands* ,2006-08-01 Since the occupation of Tibet by the Peoples Republic of China in 1959 former border principalities and feudatories of the former realm of the Dalai Lama have broken away and have developed sociopolitical and economic bonds with other states Sikkim Bhutan Ladakh and the Tibeto Burman speaking regions of Burma Nepal and others have all developed strong ethnic identities apart from Tibet Eleven well known scholars working in these borderlands of Tibet present in this volume aspects of their current historical linguistic and ethnographic research Originally presented at the Oxford University meeting of the International Association of Tibetan Studies in 2003 the volume provides a unique panoply of cultural diversity within the contemporary Tibeto Burman speaking world Illustrated with introduction Identity in Question: The Study of Tibetan Refugees in the Indian Himalayas Swati Akshay Sachdeva,Yumnam Surjajeevan,2021-01-05 Identity in Question The Study of Tibetan Refugees in Indian Himalayas focuses on the socio economic profile and the question of identity among the diasporic Tibetan communities particularly those settled in Indian Himalaya Through incorporating the notion of integration essential in the formation and formulation of an individual s identity this book explores Tibetan refugees feelings as to whether a shared consensus between themselves and others exists or whether a sense of dislocation is experienced This important and timely work also sheds light on the question of identity crisis among Tibetan youths as well as conflicting gender role identity of the Tibetan women refugees Delving into such topics is essential for the increased understanding of the various situations encountered by the diasporic communities of Tibet Therefore individuals who are seeking to understand the issue by means of academic engagement and through a policy framework process will benefit from this work *Proceedings of the Tenth Seminar of the IATS, 2003. Volume 12: Buddhism Beyond the Monastery* ,2009-09-30 Monasteries have been the locus classicus of the academic investigation of Tibetan religions This volume seeks to balance this emphasis with an exploration of the diverse religious specialists who operate outside of the monastery in Tibet and along the Himalayan belt The articles collected here depict Tantric professionals visionaries village lamas spirit mediums and female religious leaders whose loyalties reside in the noncelibate sphere but whose activities have had a significant impact on Tibetan religion Using

methodologies drawn from anthropological and textual scholarship these seven essays bolster our understanding of religious practices and their performers beyond the monasteries of Central and Eastern Tibet Bhutan and India from historical times to the present day Discoveries in Western Tibet and the Western Himalayas International Association for Tibetan Studies. Seminar,2007 Recent archaeological discoveries and scientific research especially focussed on western Tibet and the western Himalayas have resulted in a remarkable redefinition of the historical and cultural processes of the entire Indo Tibetan civilisation The present volume reflects these sometimes startling new insights for the first time covering the wide time range from the Zhang zhung period up to the 20th century spanning secular religious and economic history as well as art and archaeology *Proceedings of the Ninth Seminar of the IATS, 2000. Volume 9: Territory and Identity in Tibet and the Himalayas* Katia Buffetrille,Hildegard Diemberger,2021-11-01 Which places does Tibet include Are people Tibetan merely because of living in those places Territory and Identity are notions that are widely present in academic and popular discourses on Tibet In 1992 a group of French and Austrian researchers who had studied some of the mountain deities and sacred landscapes of Tibet began meeting to discuss the links between territory and identity in Tibetan culture Eight years later an interdisciplinary group of scholars met in Leiden in Holland to consider these questions in more detail This book contains some of their findings based on case studies carried out across the Tibetan and Himalayan regions The authors look at the role of local deities kinship economy politics and administration using approaches from across the social sciences to try to work out how a community constructs and reconstructs its idea of itself and how its members think about and are affected by the land on which they were reared **Rituals of Ethnicity** Sara Shneiderman,2015-03-25 The first comprehensive ethnography of the Thangmi a marginalized community who migrate between Himalayan border zones Rituals of Ethnicity explores Thangmi cultural worlds and regional political histories to offer a new explanation for the persistence of enduring ethnic identities despite the realities of mobile hybrid lives Inter-Ethnic Dynamics in Asia Christian Culas,François Robinne,2009-12-18 South East Asia is one of the most complex regions in the world as far as ethnic linguistic and cultural diversity is concerned with an extremely rich ancient and contemporary history Because of this it offers an exceptionally rich field of study for inter ethnic relations This book examines interethnic relationships between groups and the dynamics of exchange networks throughout Asia and includes case studies based in Vietnam Burma Laos Nepal China and Siberia The innovative aspect of this book lies in the fact that the contributors examine relationships between groups and the dynamics of exchange networks across Asia rather than ethnic groups studied in isolation Rendering the important moments of daily life of ethnic groups and focussing on the exchanges between groups sharing a specific social space this approach today still rarely used in Asian anthropology allows systems of exchange to emerge and for us to understand the systems of power and local leadership from the inside out Inter Ethnic Dynamics in Asia will be of interest to students and scholars of Asian culture and society ethnicity and regional anthropology **The Himalayan Border Region**
