Fox,2022 A Promethean technology is one that allows someone of average resources skills and intelligence to carry out actions that were once only doable by governments militaries or institutions with considerable resources Essentially Promethean technologies allow users to create their own weapons of mass destruction These emerging technologies are increasingly affordable and accessible and are no more complicated to operate than a satellite TV control box or a smart phone Although these technologies are a terrifying prospect the more we know about these dangers the better we can prepare to head them off In The Devil's Toy Box Andrew Fox lays out seven decades of preemptive analysis and shows that while homeland security has explored in depth the possible Promethean threats the world faces it has failed to forecast the most likely attacks Using fictional scenarios Fox teaches how to predict future threats and how to forecast which ones are likely to be used by bad actors within the next five to ten years Combining the skills of homeland security experts and the imaginations of speculative fiction writers he then offers an analytical method to deter counter or abate these threats rather than adopting an attitude of resigned fatalism **Hard Strike** Eric Thomson,2019-01-19 Terrorists working for traitors intent on transforming the Commonwealth into a brutal empire are preparing to spread mayhem across the vulnerable and increasingly unstable Rim Sector Their aim replace sovereign star system governments with satraps under the direct control of Earth thereby undoing generations of civil peace between humanity's many fractious branches During an operation to eliminate a radical revolutionary movement on one of the Rim Sector's most important colonies Major Decker and Commander Talyn stumble across evidence pointing at a threat more significant than any they've encountered so far evidence suppressed by Black Sword's remaining moles in Naval Intelligence With countless lives on the line Decker and Talyn race against time and enemies ensconced in high places to

undo a conspiracy aimed at reshaping an entire sector before irreversible damage propels the Commonwealth down a dark path which can only end in one last murderous civil war killing billions This time they must strike fast strike hard and strike without orders from Fleet HQ But Decker is tired of fighting the same battles over and over again He wants this mission to be the last one and is willing to do whatever it takes After all Decker is not only among Naval Intelligence's deadliest operatives he's also one of the Few Keyword Tags Zack Decker Decker's War sci fi science fiction military science fiction war space marine space infantry pathfinder space opera science fiction action adventure alien invasion space fleet sci fi adventure military sci fi Eric Thomson science fiction series interstellar war galactic war space pirates mercenary espionage thriller naval intelligence undercover operations black ops
