Understanding Islamist Terrorism In The Us And Uk Samuel John Mullins, 2015-11-09 Based on seven years of original research this book contains one of the most detailed and comprehensive assessments of home grown Islamist terrorism HGIT in the US and UK to date Beginning with an examination of the development of militant networks during the 1980s and 1990s it traces the origins of HGIT and highlights the significance of these early experiences in different countries for shaping the future trajectory of the threat The book also examines the range of motivations for violent jihad in the West suggesting a composite theoretical model that specifies three necessary conditions for involvement and challenges popular explanations for differential rates of terrorism which emphasize socioeconomic factors The book analyzes the background and operational activities of nearly 800 American and British jihadis who mobilized between 1980 and September 11th 2013 including factors such as mental health education processes of radicalization leadership use of the Internet sources of funding and links to foreign terrorist organizations This analysis is then complemented with an examination of how these individuals have been dealt with by the respective security services From the first proponents of global jihad to the recent wave of volunteers inspired by events in the Middle East this book provides an extensive yet lucid analysis of one of the greatest security concerns facing America and Great Britain today Home Grown Jihad challenges existing studies on a number of key issues and expands our understanding of HGIT It will be invaluable to academics practitioners and policymakers alike **America**

Transnational Terrorism Steven M. Chermak, 2019-11-11 The dramatic terrorist attacks of 9 11 highlighted significant gaps in research on the topic as governments community groups social service agencies and law enforcement agencies were forced to respond without any evidence based guidance on best practices for tactics strategies and policy development The essays selected for this volume demonstrate that transnational terrorism is now a thriving area of study and display the breadth and depth of scholarship that has recently been published The research draws attention to global patterns of transnational terrorism highlights various structural and cultural explanations provides an overview of some of the ways that terrorism impacts society and discusses strategies used to effectively respond to transnational

terrorism This volume which is of interest to academics policymakers and practitioners provides a repository of some of the best contemporary research in this field *Tangled Roots* Jeffrey Ivan Victoroff,2006 What do we really know about the contributing causes of terrorism Are all forms of terrorism created equal or are there important differences in terrorisms that one must know about to customize effective counter strategies Does poverty cause terrorism This book talks about the basic human ingredients that combust to produce violent extremism *Failed States and Institutional Decay* Natasha M. Ezrow, Erica Frantz,2013-07-18 What do we mean by failed states and why is this concept important to study The failed states literature is important because it aims to understand how state institutions or lack thereof impact conflict crime coups terrorism and economic performance In spite of this objective the failed state literature has not focused enough on how institutions operate in the developing world This book unpacks the state by examining the administrative security judicial and political institutions separately By doing so the book offers a more comprehensive and clear picture of how the state functions or does not function in the developing world merging the failed state and institutionalist literatures Rather than merely describing states in crisis this book explains how and why different types of institutions deteriorate Moreover the book illustrates the impact that institutional decay has on political instability and poverty using examples not only from Africa but from all around the world *Journal of Peace Research* ,2007
