2007 T p verso      **Counterterrorism** Benoît Gomis, 2015-07-17 Counterterrorism Reassessing the Policy Response promotes a more nuanced understanding of the effectiveness of current counterterrorism practices and the need for reform. It challenges government media and academic accounts that exaggerate terrorist threats particularly in comparison to other threats such as organized crime. Author Beno Gomis r      *Religious Violence Today* Michael Jerryson, 2020-07-15 Through sections containing overview essays and reference entries related to particular religions this resource explores the rise of religious violence hate crime and persecution around the world. Religious violence and persecution have been growing steadily both within the United States and around the world. Drawing on the expertise of a wide range of scholars this current and comprehensive reference helps readers understand the persecution of members of particular faiths as well as violence committed by members of those faiths. In doing so it promotes a greater understanding of the role of religion in global politics domestic and international terrorism and religious bigotry. The book contains sections on particular religious traditions from around the world. Each section begins with an overview essay surveying violence related to that particular religion whether committed by or against members of that faith. Reference entries in each section then provide objective fundamental information about particular topics related to violence and the religion discussed. The entries provide cross references and suggestions for further reading and the work closes with a bibliography of resources for further study.      *Drug Trafficking, Organized Crime, and Violence in the Americas Today* Bruce M. Bagley, Jonathan D. Rosen, 2017-07-25 An extensive overview of the drug trade in the Americas and its impact on politics economics and society throughout the region. Highly recommended. Choice A first rate update on the state of the long fought hemispheric war on drugs. It is particularly timely as the perception that the war is lost and needs to be changed has never been stronger in Latin and North America. Paul Gootenberg author of *Andean Cocaine: The Making of a Global Drug* A must read volume for policy makers concerned citizens and students alike in the current search for new approaches to forty year old policies largely considered to have failed. David Scott Palmer coauthor of *Power: Institutions and Leadership in War and Peace* A very useful primer for anyone trying to keep up with the ever evolving relationship between drug enforcement and drug trafficking. Peter Andreas author of *Smuggler Nation: How Illicit Trade Made America* In 1971 Richard Nixon declared a war on drugs. Despite foreign policy efforts and attempts to combat supply lines the United States has been for decades and remains today the largest single consumer market for illicit drugs on the planet. This volume argues that the war on drugs has been ineffective at best and at worst has been highly detrimental to many countries. Leading experts in the fields of public health political science and national security analyze how U S policies have affected the internal dynamics of Mexico Colombia Bolivia Peru Brazil Argentina Central America and the Caribbean islands. Together they present a comprehensive overview of the major trends in drug trafficking and organized crime in the early twenty first century. In addition the editors and contributors identify emerging issues and propose several policy options to address them. This accessible and expansive volume provides a framework for

understanding the limits and liabilities in the U S championed war on drugs throughout the Americas      *Documents* Council
