Methodologies in Critical Terrorism Studies Alice E. Finden, Carlos Yebra López, Tarela Ike, Ugo Gaudino, Samwel Oando, 2024-01-04 This interdisciplinary book presents an intervention into methodological practices in the subfield of Critical Terrorism Studies and features established and early career scholars The volume interrogates the role that research methods play in shaping the sub discipline of Critical Terrorism Studies CTS It responds to two major methodological gaps within CTS 1 the dearth of Global South cases and voices and decolonial and feminist approaches and 2 the lack of engagement with traditional disciplines and quantitative methods Together authors demonstrate that interdisciplinary methodological dialogues can open up new possibilities for researchers seeking pathways towards and definitions of emancipation social justice and freedom from violence Simultaneously the book shows that by focusing on the possibilities that methodologies open up to us and by maintaining a commitment to reflexive practice we expand our understandings of

what are legitimate and acceptable forms of research thus challenging the Critical Terrorism Studies divide The chapters draw upon a wide range of empirical cases including Nigeria Kenya France Brazil and the UK focusing on three key issues within Critical Terrorism Studies its own relationship with and perpetuation of epistemic violence decolonial postcolonial Global South feminist and queer approaches and more traditional approaches and methods as a means to interrogate the methodological binary between Critical Terrorism Studies and Terrorism Studies This book will be of much interest to students of critical terrorism studies counter terrorism security studies and International Relations in general **The**

**The Invention of Terrorism in Europe, Russia, and the United States** Carola Dietze, 2021-07-27 Terrorism's roots in Western Europe and the USA This book examines key cases of terrorist violence to show that the invention of terrorism was linked to the birth of modernity in Europe Russia and the United States rather than to Tsarist despotism in 19th century Russia or to Islam sects in Medieval Persia Combining a highly readable historical narrative with analysis of larger issues in social and political history the author argues that the dissemination of news about terrorist violence was at the core of a strategy that aimed for political impact on rulers as well as the general public Dietze's lucid account also reveals how the spread of knowledge about terrorist acts was from the outset a transatlantic process Two incidents form the book's centerpiece The first is the failed attempt to assassinate French Emperor Napoleon III by Felice Orsini in 1858 in an act intended to achieve Italian unity and democracy The second case study offers a new reading of John Brown's raid on the arsenal at Harpers Ferry in 1859 as a decisive moment in the abolitionist struggle and occurrences leading to the American Civil War Three further examples from Germany Russia and the US are scrutinized to trace the development of the tactic by first imitators With their acts of violence the invention of terrorism was completed Terrorism has existed as a tactic since then and has essentially only been adapted through the use of new technologies and methods
