**Counter-Terrorism for Emergency Responders, Second Edition** Robert A. Burke, 2006-07-25 Terrorism is no longer something that only happens to other countries Attacks on US soil in the 1990 s brought the reality of terrorism home and the Sept 11th tragedy let us know that the United States is a high priority target The goal of today s terrorist is body count and while traditional bombings have served them in the past the allure of killing thousands of people with a very small amount of biological or chemical agent will prove irresistible Our only defense on the front line is a well prepared emergency response team The key to an effective terrorist response is to understand and contain the hazardous materials involved Counter Terrorism for Emergency Responders Second Edition meticulously details the characteristics actions identification containment and emergency treatment of all types of agents Drastically updated from the 1999 edition chapter after chapter is packed with new information on chemical agents biological agents and explosive nuclear and incendiary devices Using his 26 years of experience in emergency services and his skills as a hazardous materials consultant in more than 15 states the author prepares the first responder to handle everything from re establishing control and on scene triage to investigating the crime Including information on pre incident and avoidance tactics the author provides new monitoring and detection techniques protective equipment and decontamination and an extensive list of resource organizations and training opportunities The worst may never happen to your community but will you be prepared if it does *Emergency Response to Domestic Terrorism* Alethia Cook, 2009-11-02 Analyses the emergency response to the bombing of the Alfred P Murrah Federal Building in Oklahoma City on April 19 1995 Emergency Response to Terrorism ,2003 Counter-Terrorism for Emergency Responders Robert A. Burke, 2017-10-31 Using the authors many years of experience in emergency services and his skills as a hazardous materials consultant prepares the first responder to handle everything from re establishing control and on scene triage to investigating the crime Including information on pre incident and avoidance tactics the author also discusses monitoring and detection techniques protective equipment and decontamination and an extensive list of resource organizations and training opportunities This up to date 3rd edition is written to provide concise information for emergency responders who might be called upon to confront explosive chemical nuclear biological or incendiary acts of terrorism

Emergency Responders-- Drastically Underfunded, Dangerously Unprepared Jamie Frederic Metzl,Warren B. Rudman,Richard Alan Clarke,2003 The Council sponsored Independent Task Force on Emergency Responders met with emergency responder organizations across the country to assess what would be required to achieve a minimum effective response to a catastrophic terrorist attack Although the Task Force argues that additional funding for emergency responders is urgently needed the report also stresses the importance of developing national preparedness standards to ensure the most efficient and effective use of limited resources *Protecting Emergency Responders* Henry H. Willis,Rand Corporation,2006 This monograph serves as a technical source for National Institute for Occupational Safety and Health NIOSH incident commander guidelines for emergency response immediately following large structural collapse events It gives guidelines for personal protective equipment PPE focusing on required modifications to responders typical PPE ensembles because of the duration of response and the need to prevent exposures to likely hazards from pathogens airborne dusts and gaseous hazardous materials The Scientific Response to Terrorism: Report, together with formal minutes Great Britain: Parliament: House of Commons: Science and Technology Committee,Great Britain. Parliament. House of Commons. Select Committee on Science and Technology,2003 The report examines how science and technology is used in countermeasures to chemical biological radiological and nuclear CBRN devices employed by terrorists Areas of good practice are pointed out for example the Office of the Deputy Prime Minister s ODPM s New Dimension programme of procurement for the Fire Service but there has been very little new investment in long term research and development in this field for instance the lack of emphasis on scientific research in the Home Office The Committee proposes a Centre for Home Defence under the Home Office to develop technologies for civilian use The surveillance of dangerous chemicals and pathogens both nationally and internationally is a matter of concern The Government has also imposed an unnecessary and counterproductive level of secrecy surrounding its counter terrorism research **Hazardous Materials Response Handbook** Jerry W.

Laughlin,David G. Trebisacci,2002 The supplements to this handbook contains information on lessons learned from terrorist attacks operating safely in hazardous environments fire fighter fatalities propane tank explosions justifying a haz mat team selection of chemical protective ensembles using NFPA guidelines for decontamination of fire fighters and their equipment following a haz mat incident and EMS sector standard operating procedures
