*California Impressionists* Susan Landauer, Georgia Museum of Art, Irvine Museum, Atlanta Committee for the Olympic Games, 1996 The years around the turn of the century were a dynamic time in American art Different and seemingly contradictory movements were evolving and the dominant style that emerged during this period was Impressionism Based in part on the broken brushwork and high keyed palette of Claude Monet it was a form especially suited to the dramatic landscape and shimmering light of California This book celebrates forty Impressionist painters who worked in California from 1900 through the beginning of the Great Depression it includes widely recognized California artists such as Maurice Braun and Guy Rose less well known artists such as Mary DeNeale Morgan and Donna Schuster and eastern painters who worked briefly in the region such as Childe Hassam and William Merritt Chase The contributors essays examine the socioeconomic forces that shaped this art movement as well as the ways in which the art reflected California's self cultivated image as a healthful sun splashed arcadia

Impressionism John I. Clancy, 2003 Defining an artistic era or movement is often a difficult task as one tries to group individualistic expressions and artwork under one broad brush Such is the case with impressionism which culls together the art of a multitude of painters in the mid 19th century including Monet C zanne Renoir Degas and van Gogh Basically impressionism involved the shedding of traditional painting methods The subjects of art were taken from everyday life as opposed to the pages of mythology and history In addition each artist painted to express feelings of the moment instead of hewing to time honoured standards This description of impressionism obviously is quite broad and can apply to a wide array of styles Nonetheless it remains a very important school in the annals of art Any current or budding art aficionado should become familiar with the impressionist movement and its impact on the art world This book presents a sweeping study of this artistic period from its origins to its manifestations in the works of some of art history's most revered painters Following this overview is a substantial and selective bibliography featuring access through author title and subject indexes

**England's Secret Weapon** Amanda Field, 2012-07-19 England's Secret Weapon explores the way Hollywood used Sherlock Holmes in a series of fourteen films spanning the years of World War II in Europe from *The Hound of the Baskervilles* in 1939 to *Dressed to Kill* in 1946 Basil Rathbone's portrayal of Holmes has influenced every actor who has since played him on film TV stage and radio yet the film series has until now been neglected in terms of detailed critical analysis The book looks at the films themselves in combination with their historical context and examines how the studio updated Holmes and recruited him to fight the Nazis steering a careful course between modernising the detective and making sure he was still recognisable as the old Holmes in clothes locations and behaviour
