Richard Davenport Hines on Anita Roddick Brenda Hale on Rose Heilbron Roy Hattersley on James Callaghan Simon Heffer on John Profumo Douglas Hurd on Edward Heath Alex Jennings on Paul Scofield Hermione Lee on Pat Kavanagh Geoffrey Wheatcroft on Conor Cruise O'Brien and Peregrine Worsthorne on Bill Deedes Many in this volume are naturally household names But a good number are also remembered for lives away from the headlines What in the 1980s became Thatcherism owed much to behind the scenes advice from Ralph Harris and Alfred Sherman children who learned to read with Ladybird Books must thank their creator Douglas Keen while without its first producer Verity Lambert there would have been no Doctor Who Others are ordinary people capable of remarkable acts Take for instance Arthur Bywater who over two days in 1944 cleared thousands of bombs from a Liverpool munitions factory following an explosion only to do the same months later in an another factory Awarded the George Cross and the George Medal Bywater remains the only non combatant to have received Britain's two highest awards for civilian bravery      Speedbird Robin Higham,2013-05-30 Between 1939 and 1946 BOAC the British Overseas Airways Corporation was the nationalised airline of Great Britain and between 1946 and 1974 as such it exclusively operated all long haul British flights With its iconic Speedbird logo and its central role in the glamorous jet age of the 1950s and 1960s BOAC achieved a near cult status with admirers around the globe Yet to date there has been no comprehensive history of the organisation covering its structure fleet and the role it played in the critical events of the age from World War II to the end of empire a period when BOAC played a pivotal part in projecting British political power even as that power was waning During World War II BOAC operated a limited wartime service and prepared for the return of commercial flight in the postwar era But it was in the service of Britain's colonies and latterly the process of decolonisation that BOAC achieved its most pivotal role The development of flight technology enabled much faster connections between Britain and her imperial possessions as the colonies prepared for independence BOAC ferried diplomats politicians and colonial administrators between London and the far flung corners of Africa and Asia in much faster times than had previously been possible In this book acclaimed historian Robin Higham presents a unique comprehensive study of BOAC from the early jet travel of the de Havilland Comet and the Vickers VC10 to the dawn of supersonic passenger aviation Highly illustrated and meticulously researched using previously unseen sources this book will be essential reading for all aviation enthusiasts and anyone interested in the history of modern Britain      Jet Pioneers Tim Kershaw,2004-03-18 In April 1941 Britain's first jet left the ground at a grass airfield 4 miles from Gloucester Cathedral It was the start of a revolution in air travel military and civilian During the 1940s Britain's first ever jet aircraft the world's first jet fighter in squadron service and the first jet to hold the world air speed record were all designed built and flown in the Gloucester and Cheltenham area The story of Frank Whittle's invention and dogged development of the jet engine is well known But the account of how his invention was put into the air has never been fully told This book tells the story of how the men and women of north Gloucestershire made Whittle's engine fly      Men of Power Robert Jackson,2007-03-28 Robert Jackson's Men of Power delves into the lives of RAF flyers
