*America's New Racial Battle Lines* Rogers M. Smith, Desmond King, 2024-05-02 A sobering portrait of the United States divided racial politics For nearly two decades Rogers M. Smith and Desmond King have charted the shifting racial policy alliances that have shaped American politics across different eras In *America's New Racial Battle Lines* they show that US racial policy debates are undergoing fundamental change Disputes over colorblind versus race conscious policies have given way to new lines of conflict Today's conservatives promise to protect traditionalist predominantly white Christian Americans against what they call the radical Left Meanwhile today's progressives seek not just to integrate American institutions but to more fully transform and repair pervasive systemic racism Drawing on interviews with activists surveys social network analyses and comprehensive reviews of federal state and local policies and advocacy groups Smith and King map the memberships and goals of two rival racial policy alliances and delineate the contrasting stories each side tells They also show that these increasingly polarized racial policy alliances are substantially funded on both the Left and Right Placing today's conflicts in

theoretical and historical perspectives Smith and King analyze where these intensifying clashes may take the nation in the years ahead They highlight the great potential for mounting violence as well as the remaining possibilities for finding common ground

Judicial Selection in the States Herbert M. Kritzer,2020-04-30 Using detailed case studies of the relevant US states Herbert Kritzer provides an unprecedented examination of the process and politics of how states select and retain judges The book is organized around the competing goals of politics and professionalism namely whether the focus in choosing judges should be on future judicial decisions court outputs or on the court processes by which those decisions are reached Or in considering who should be a judge whether the emphasis should be on political credentials or on professional credentials One important finding is that political concerns have surpassed professionalism concerns since 2000 Another is that voters have been more supportive of professionalism in selecting appellate judges than trial judges Judicial Selection in the States should be read by anyone seeking a deep understanding of the complex interplay between politics and the judiciary at the state level in the United States
