Texas Argonauts Richard H. Dillon,1987 **Texas Argonauts** ,1987 **Stealing the Gila** David H.

DeJong,2016-12-01 By 1850 the Pima Indians of central Arizona had developed a strong and sustainable agricultural economy based on irrigation As David H DeJong demonstrates the Pima were an economic force in the mid nineteenth century middle Gila River valley producing food and fiber crops for western military expeditions and immigrants Moreover crops from their fields provided an additional source of food for the Mexican military presidio in Tucson as well as the U S mining districts centered near Prescott For a brief period of about three decades the Pima were on an equal economic footing with their non Indian neighbors This economic vitality did not last however As immigrants settled upstream from the Pima villages they deprived the Indians of the water they needed to sustain their economy DeJong traces federal territorial and state policies that ignored Pima water rights even though some policies appeared to encourage Indian agriculture This is a particularly egregious example of a common story in the West the flagrant local rejection of Supreme Court rulings that protected Indian water rights With plentiful maps tables and illustrations DeJong demonstrates that maintaining the spreading farms and growing towns of the increasingly white population led Congress and other government agencies to willfully deny Pimas their water rights Had their rights been protected DeJong argues Pimas would have had an economy rivaling the local and national economies of the time Instead of succeeding the Pima were reduced to cycles of poverty their lives destroyed by greed and disrespect for the law as well as legal decisions made for personal gain An American Genocide Benjamin Madley,2016-01-01 The first full account of the government sanctioned genocide of California Indians under United States rule Between 1846 and 1873 California s Indian population plunged from perhaps 150 000 to 30 000 Benjamin Madley is the first historian to uncover the full extent of the slaughter the involvement of state and federal officials the taxpayer dollars that supported the violence indigenous resistance who did the killing and why the killings ended This deeply researched book is a comprehensive and chilling history of an American genocide Madley describes pre contact California and precursors to the genocide before explaining how the Gold Rush stirred vigilante violence against California Indians He narrates the rise of a state sanctioned killing machine and the broad societal judicial and political support for genocide Many participated vigilantes volunteer state militiamen U S Army soldiers U S congressmen California governors and others The state and federal governments spent at least 1 700 000 on campaigns against California Indians Besides evaluating government officials culpability Madley considers why the slaughter constituted genocide and how other possible genocides within and beyond the Americas might be investigated using the methods presented in this groundbreaking book
