

Texas Water Planning Timeline, 1904–2019

Pre-State Water Plan Era

1904

A constitutional amendment authorized the first public development of water resources.

The Texas Supreme Court adopted the rule of capture for groundwater.

1913

The Texas Legislature adopted laws for irrigation and created the Board of Water Engineers.

1917

Senate Joint Resolution 12 created conservation and reclamation districts, later known as river authorities, and declared the preservation and conservation of Texas natural resources as public rights and duties.

1949

The Texas Groundwater Act provided for underground water conservation districts.

1951

The first groundwater conservation district, the High Plains Underground Conservation District No. 1, was created.

Centralized Water Planning Era

1961

The first state water plan was published, projecting the 1980 municipal, agricultural, and industrial water requirements and providing a plan to meet them.

1957

The Texas Legislature created the TWDB, and voters authorized \$300 million in bonds for water project loans. The Water Planning Act created the Texas Water Resources Planning Division of the Board of Water Engineers, which was assigned the responsibility of water supply planning.

1950s

Texas experienced its worst drought in recorded history from 1950 to 1957. Most water supply planning in Texas is based on this statewide "drought of record."

1968

The Water Rights Adjudication Act consolidated all previously held surface water rights into a unified system of "certificates of adjudication." The TWDB published a state water plan identifying and planning for needs through 2030.

1984

The TWDB published a state water plan identifying and planning for needs through 2030.

1990

The TWDB published a state water plan that emphasized improved overall management of existing and future water infrastructure systems.

1992

The TWDB published a state water plan formatted as an amendment to the more detailed 1990 plan.

1993

Following the Sierra Club v. Lujan decision, the legislature created the Edwards Aquifer Authority to regulate withdrawals from the aquifer.

Regionalized Water Planning Era

2005

The Texas Legislature established a requirement that groundwater conservation districts within 16 groundwater management areas conduct joint planning and establish desired future conditions.

2002

The TWDB produced the first state water plan based on regional planning.

2001

Senate Bill 2 made significant amendments to regional water planning, established the Water Infrastructure Fund, directed the TWDB to delineate groundwater management areas, and empowered TCEQ to recommend groundwater conservation districts.

1997

Senate Bill 1 created 16 RWPGs, updated the laws relating to priority GMAs, and identified GCDs as the preferred method of groundwater management. The TWDB, TPWD, and TCEQ produced the first state water plan that organized the state into 16 regions.

2007

Senate Bill 3 established a stakeholder process to develop environmental flow standards for Texas' major river basins and bay systems. The TWDB produced a state water plan.

2012

The TWDB produced a state water plan.

2013

House Bills 4 and 1025 created the State Water Implementation Fund for Texas (SWIFT) and the State Water Implementation Reserve Fund for Texas (SWIRFT) to fund state water plan projects.

2017

The TWDB produced a state water plan and accompanying interactive website.

2019

House Bill 807 created the Interregional Planning Council to report planning process improvements to the TWDB.
