

LANGUAGE OF LITERARY TEXT

MODULE 1

ACTIVITIES

1. How do the literary elements helps readers to have a better understanding of a literary text?

Literary elements are the things that all literature—whether it's a news article, a book, or a poem—*absolutely* have to have. Literary elements are the fundamental building blocks of writing, and they play an important role in helping us write, read, and understand literature. Understanding the various elements is particularly useful when studying longer works. It enables students to examine specific aspects of the work in isolation, before piecing these separate aspects back together to display an understanding of the work as a whole. Having a firm grasp on how the different elements work can also be very useful when comparing and contrasting two or more texts. Not only does understanding the various elements of literature helps us to answer literature analysis questions in exam situations, but it also helps us develop a deeper appreciation of literature in general.

2. Identify the literary elements used in the poem/sentences.

1. Anaphora

Anaphora describes a poem that repeats the same phrase at the beginning of each line. Sometimes the anaphora is a central element of the poem's construction; other times, poets only use anaphora in one or two stanzas, not the whole piece.

2. Conceit

A conceit is, essentially, an extended metaphor. The conceit ranks among the most powerful literary devices in poetry. In your own poetry, you can employ a conceit by exploring one metaphor in depth.

3. Apostrophe

Apostrophe is often employed in admiration or longing, as we often talk about things far away in wistfulness or praise. Don't confuse this with the punctuation mark for plural nouns—the literary device apostrophe is different. Apostrophe describes any instance when the speaker talks to a person or object that is absent from the poem. Poets employ apostrophe when they speak to the dead or to a long lost lover.

4. Metonymy & Synecdoche

Metonymy and synecdoche are very similar poetic devices, so we'll include them as one item. A metonymy is when the writer replaces "a part for a part," choosing one noun to describe a different noun.

5. Enjambment & End-Stopped Lines

Poets have something at their disposal which prose writers don't: the mighty line break. Line breaks and stanza breaks help guide the reader through the poem, and while these might not be headline "literary devices in poetry," they're important to understanding the strategies of poetry writing. Enjambment and end-stopping are ways of reflecting and refracting the poem's mood.

6. Zeugma

A fun little device you don't see often in contemporary poetry—it was much more common in ancient Greek and Latin poetry, such as the poetry of Ovid. A zeugma occurs when one verb is used to mean two different things for two different objects. For example, I might say "He ate some pasta, and my heart out." To eat pasta and eat someone's heart out are two very different definitions for *ate*: one consumption is physical, the other is conceptual.

Language, 1926 **The Nordic Languages. Volume 1** Oskar Bandle, Kurt Braunmüller, Ernst Hakon Jahr, Allan Kärker, Hans-Peter Naumann, Ulf Telemann, Lennart Elmevik, Gun Widmark, 2002. The handbook is not tied to a particular methodology but keeps in principle to a pronounced methodological pluralism encompassing all aspects of actual methodology. Moreover it combines diachronic with synchronic systematic aspects: longitudinal sections with cross sections, periods such as Old Norse transition from Old Norse to Early Modern Nordic, Early Modern Nordic 1550-1800 and so on. The description of Nordic language history is built upon a comprehensive collection of linguistic data; it consists of more than 200 articles written by a multitude of authors from Scandinavian and German and English speaking countries. The organization of the book combines a central part on the detailed chronological developments and some chapters of a more general character: chapters on theory and methodology in the beginning and on overlapping spatio-temporal topics in the end.

The Greek Imperative Mood in the New Testament Joseph D. Fantin, 2010. The imperative mood as a whole has generally been neglected by Greek grammarians. *The Greek Imperative Mood in the New Testament: A Cognitive and Communicative Approach* utilizes insights from modern linguistics and communication theory in order to propose an inherent semantic meaning for the mood and describe the way in which it is used in the New Testament pragmatics. A linguistic theory called neuro-cognitive stratificational linguistics is used to help isolate the morphological imperative mood and focus on addressing issues directly related to this area while principles from a communication theory called relevance theory provide a theoretical basis for describing the usages of the mood. This book also includes a survey of New Testament and select linguistic approaches to the imperative mood and proposes that the imperative mood is volitional-directive and should be classified in a multidimensional manner. Each imperative should be classified according to force, which participant (speaker or hearer) benefits from the fulfillment of the imperative and where the imperative falls within the event sequence of the action described in the utterance. In this context sociological factors such as the rank of participants and level of politeness are discussed together with other pragmatic related information. *The Greek Imperative Mood in the New Testament* is a valuable teaching tool for intermediate and advanced Greek classes.
