Text and Discourse Constitution János S. Petöfi, 2011-05-02 No detailed description available for Text and Discourse Constitution     **Patterns of Text** Michael Hoey, Mike Scott, Geoff Thompson, 2001-01-01 It is increasingly clear that in order to understand language as a phenomenon we must understand the phenomenon of text Our primary experience of language comes in the form of texts which embody the complete communicative events through which our language using lives are lived These events are shaped by communicative needs and this shaping is reflected in certain characteristic patterns in the texts However the nature of texts and text is still elusive we know which forms are typically found in text but we do not yet have a full grasp of how they constitute its textuality how they make a text tick The twelve contributions to this volume show how texts across a wide range of text types hold together by different patterns of chunking and linking The common purpose in all the contributions is to explore the nature of text patterning as the functional environment within which language operates     **Talk Units** Brigitte K. and Discourse Azad Mammadov, 2018-02 This book covers a broad range of issues in the studies of text and discourse It  
combines a theoretical framework with empirical engagement and brings together various approaches to these two  
phenomena from the structural functional and cognitive perspectives While this topic has been widely discussed in recent  
years such studies have mostly focused on specific language and discourse types This work however presents the analysis of  
texts from American British Azerbaijani French and Russian discourses across various types and genres and adopts an  
exclusive focus on pragmatic and cognitive aspects The study of these two aspects can help reveal not only global and local  
cultural identities but also the specific features of their discourse types and genres As such the book also pays extensive  
attention to the role the studies of text and discourse can play in exploring globalization and intercultural communication
