Short History of Western Ideology Rolf Petri, 2018-02-22 We are arguably living in a postideological era. However, when we tune into the TV news, we can hear political leaders talk about advanced societies. Geopolitical experts suggest humanitarian interventions, and sober events presenters qualify a murder as barbaric. What does this mean? In this comprehensive book, Rolf Petri reveals how our everyday political language is full of ideological representations of the world and places them in an accessible historical narration. From the secularization of Europe and the Enlightenment project of civilization to the contemporary preoccupation with ecological catastrophes or the end of history, *A Short History of Western Ideology* carves out the central elements of western ideology. It focuses on a wide variety of issues including religion, colonialism, race, and gender, which are essential for how we conceive of the modern world. By creating an awareness of the ideological character of the western worldview, its limits, and its flaws, this book warns us of the dangers that derive from a self-righteous mindset. It is stimulating and important reading for history and politics students seeking to understand the ideology of the western world.

Founding Gods, Inventing Nations William F. McCants, 2012 From the dawn of writing in Sumer to the sunset of the Islamic empire, *Founding Gods, Inventing Nations* traces four thousand years of speculation on the origins of civilization. Investigating a vast range of primary sources, some of which are translated here for the first time and focusing on the dynamic influence of the Greek, Roman, and Arab conquests of the Near East, William McCants looks at the ways the conquerors and those they conquered reshaped their myths of civilization's origins in response to the social and political consequences of empire. The Greek and Roman conquests brought with them a learned culture that competed with that of native elites. The conquering Arabs, in contrast, had no learned culture, which led to three hundred years of Muslim competition over the cultural orientation of Islam, a contest reflected in the culture myths of that time. What we know today as Islamic culture is the product of this contest, whose protagonists drew heavily on the lore of non-Arab and pagan antiquity. McCants argues that authors in all three periods did not write about civilization's origins solely out of pure antiquarian interest; they also sought to address the social and political tensions of the day. The strategies they employed and the postcolonial dilemmas they confronted provide invaluable context for understanding how authors today use myth and history to locate themselves in the confusing aftermath of empire.

Studies in Post Colonialism Lilack Biswas, 2015-07-25 This book is a collection of scholarly essays on various literature, film, as well as literary figures from a postcolonial point of view. The deep meditation and keen observations from a postcolonial point of view of W. B. Yeats or the Bollywood adaptation of Shakespeare, as well as Rushdi Amitabha Ghosh or Jhumpa Lahiri by modern Indian scholars, have given the book a fresh flavour. The studies on Chinua Achebe, Benjamin Zephaniah, and Doris Lessing have added new dimensions to this. On the other hand, the chapters on color imperialism and racial arrogance have contributed to show different angles of postcolonialism.

Max Weber's Vision for Bureaucracy Glynn Cochrane, 2017-08-11 This volume examines Max Weber's pre-World War I thinking about bureaucracy. It suggests that Weber's vision shares common components with the highly

efficient Prussian General Staff military bureaucracy developed by Clausewitz and Helmuth von Moltke Weber did not believe that Germany's other major institutions the Civil Service industry or the army could deliver world class performances since he believed that they pursued narrow selfish interests However following Weber's death in 1920 the model published by his wife Marianne contained none of the military material about which Weber had written approvingly in the early chapters of *Economy and Society* Glynn Cochrane concludes that Weber's model was unlikely to include military material after the Versailles peace negotiations in which Weber participated outlawed the Prussian General Staff in 1919 **POLITICAL**

Postcolonial Biology Deepika Bahri, 2017-12-15

Although the body has been a vast subject for postcolonial studies few theorists have attempted to go beyond the simple mixing of races in examining the impact of colonialism on the colonized body However as Deepika Bahri argues it is essential to see the postcolonial body in a variety of forms as capable of transformation not only in psyche and outward behavior but also in flesh and blood European colonizers brought new ways of seeing the body in matters as basic as how to eat speak sit shit or spit As nations decolonized these imperialistic ideas remained becoming part of the global economy of the body In Postcolonial Biology Bahri argues that the political challenges of the twenty first century require that we deconstruct these imperial notions of the body as they are fundamental to power structures governing today's globalized world Postcolonial Biology investigates how minds and bodies have been shaped by colonial contact to create deeply embedded hierarchies among the colonized Moving beyond North South thinking Bahri reframes the questions of postcolonial bodies to address all societies whether developed or developing Engaging in innovative highly original readings of major thinkers such as Adorno Horkheimer Derrida and Fanon this book brings an important new focus to the field of postcolonial studies one that is essential to understanding the ideas and conflicts that currently dominate the global order

Authenticating Criteria in

Jesus Research and Beyond Kevin B. Burr, 2023-10-16 Are the criteria of authenticity of Jesus research idiosyncratic to New Testament studies vehicles of subjectivity and fundamentally flawed vestiges of form criticism as some claim today If so why do opponents of the criteria approach still use them Or are the criteria the tools of general historiography as others assert If true none have adequately demonstrated where and how principles such as multiple attestation general and historical coherence dissimilarity and embarrassment feature in general historiographic method until now This study analyzes the methods of general historians and Jesus researchers who favor or oppose the criteria and demonstrates that regardless of sub discipline authenticating criteria are inherent to the practice of historiography

Plural Pasts Arthur Alfaix Assis, 2023-12-14 What is history about This Element shows that answers centred on the keyword past events are incomplete even if they are not simply wrong Interweaving theoretical and historical perspectives it provides an abstract overview of the thematic plurality that characterizes contemporary academic historiography The reflection on different sorts

of pasts that can be at focus in historical research and writing encompasses events as well as non events especially recursive social structures and cultural webs Some consequences of such plurality for discussions concerning historical methodology explanation exemplification and representation are also outlined The basic message reinforced throughout is that the great relevance of non event centred approaches should prompt us to talk more about histories in the plural and less about history in the singular

The Postcolonial Epic Sneharika Roy, 2018-01-12 This book demonstrates the epic genre's enduring relevance to the Global South It identifies a contemporary avatar of classical epic the postcolonial epic ushered in by Herman Melville's *Moby Dick* a foundational text of North America and exemplified by Derek Walcott's Caribbean masterpiece *Omeros* and Amitav Ghosh's South Asian saga the *Ibis* trilogy The work focuses on the epic genre's rich potential to articulate postimperial concerns with nation and migration across the Global North South divide It foregrounds postcolonial developments in the genre including a shift from politics to political economy subaltern reconfigurations of capitalist and imperial temporalities and the poststructuralist preoccupation with language and representation In addition to bringing to light hitherto unexamined North South affiliations between Melville Walcott and Ghosh the book proposes a fresh approach to epic through the comparative concept of political epic where an avowed national politics promoting a culture's pure origins coexists uneasily with a disavowed poetics of intertextual borrowing from other cultures An important intervention in literary studies this volume will interest scholars and researchers of postcolonial studies especially South Asian and Caribbean literature Global South studies transnational studies and cultural studies
