world was to become the Expressionist film Expressionism insofar forms a sharp contrast to Impressionism and Naturalism as it does not attempt to depict momentary impressions of the world nor does it aim at presenting the physical world as it is. On the contrary it portrays an interpreted psychological and spiritual reality thus revealing the underlying essence and meaning of things. As a result reality can be seen as a creation of the mind which calls for the viewer's interpretation.

German Expressionism Melissa Venator, 2024-03-21 New insight into German Expressionism through its permanent collection at the Saint Louis Art Museum. The Saint Louis Art Museum is home to one of North America's largest and most comprehensive collections of German Expressionist paintings. Rediscover a defining movement of modern art through this original study of works by twenty-five artists who span its famously wide arc. German Expressionism Paintings at the Saint Louis Art Museum is the first publication on the Saint Louis Art Museum's internationally renowned collection of German Expressionist art which includes major works by the movement's leading artists and lesser-known figures rarely seen outside of Germany. Engaging entries delve into the paintings' histories from their production to their arrival in St. Louis. An introduction traces the collection's origins to the flood of Expressionist art that entered the United States during World War II. What emerges is a new account of a pivotal era in modern art exploring the stories behind exceptional German Expressionist paintings.

Max Pechstein: The Rise and Fall of Expressionism Bernhard Fulda, Aya Soika, 2012-10-30 Max Pechstein 1881-1955 is one of the most prominent German artists of the twentieth century not least because of his crucial role in the breakthrough of German Expressionism. This long overdue biography combines the portrayal of an outstanding artistic personality with the story of an individual German who struggled through the political upheavals of his time. Pechstein's work is presented in the cultural context of museum politics and art associations, art dealers and critics, market forces and cultural trends.

German Expressionist Theatre David F. Kuhns, 1997-08-28 German Expressionist Theatre: The Actor and the Stage considers the powerfully stylized anti-realistic styles of acting on the German Expressionist stage from 1916 to 1921. It relates this striking departure from the dominant European acting tradition of realism to the specific cultural crises that enveloped the German nation during the course of its involvement in World War I. This book describes three distinct Expressionist acting styles, all of which in their own ways attempted to show how symbolic stage performance could be a powerful rhetorical resource for a culture struggling to come to terms with the crises of historical change. The examination of Expressionist script and actor memoirs allows for an unprecedented focus on description and analysis of acting itself.

German Expressionist Sculpture Stephanie Barron, 1983 The volume presents a survey of German expressionist sculpture. Expressionism was a modernist movement initially in poetry and painting, originating in Germany at the beginning of the 20th century. Its typical trait is to present the world solely from a subjective perspective, distorting it radically for emotional effect in order to evoke moods or ideas. Expressionist artists sought to express meaning or emotional experience rather than physical reality. The term is sometimes suggestive of emotional angst. The Expressionist emphasis on

individual perspective has been characterized as a reaction to positivism and other artistic styles such as naturalism and impressionism This work contains more than one hundred and twenty examples of German Expressionist sculpture by thirty three artists Included are sculptures by artists recognized for their work in this medium Ernst Barlach Wilhelm Lehmbruck Georg Kolbe Renee Sintenis Gerhard Marcks as well as sculpture by such figures as Kathe Kollwitz Ernst Ludwig Kirchner Erich Heckel Karl Schmidt Rottluff Emil Nolde Max Beckmann Egon Schiele and Otto Freundlich whose reputations are based on their painting and graphic oeuvres A significant number of works by lesser known artists who belonged to the second generation of Expressionism in the twenties among them Herbert Garbe Conrad Felixmuller Paul Rudolf Henning William Wauer and Christoph Vollare also examined Included in the catalog are examples of the artists varied writings as well as evaluations by contemporary critics scholars writers and poets Seven essays and excerpts from contemporary texts published in translation for the first time highlight the German Expressionists concern with particular materials and their attraction to African and Oceanic art

Selling the Movie Ian Haydn Smith,2018 As long as there have been movies there have been posters selling films to audiences Posters came into existence just decades before the inception of film and as movies became a universal medium of entertainment posters likewise became a ubiquitous form of advertising At first movie posters suggested a film s theme from adventure and romance to thrills and spine tingling horror Then with the ascendancy of the film star posters began to sell icons and lifestyles nowhere more so than in Hollywood But every country producing films used posters to sell their product Selling the Movie The Art of the Film Poster charts the history of the movie poster from both a creative and a commercial perspective It includes sections focusing on poster artists the development of styles the influence of politics and ideology and how commerce played a role in the film poster s development The book is richly illustrated with poster art from many countries and all eras of filmmaking From creating the brand of Charlie Chaplin s tramp and marketing the elusive mystique of Greta Garbo to the history of the blockbuster the changing nature of graphic design by the decade and the role of the poster in the digital age Selling the Movie is an entertaining and enthralling journey through cinema art and the business of attracting audiences to the box office
