The Relentless Offensive Roy Irons,2009-06-25 During the years before World War II the Royal Air Force created amid the bloodshed of the Great War saw salvation in the doctrine of a relentless offensive by a bomber force which would sail over trenches and then on to the enemy cities and annihilate the ability of the enemy to wage war This book gives a view of how that doctrine driven by courage and coldly sharpened by scientists brought those visions to reality This is a fresh analysis of

Bomber Command its tactics and technology It discusses exactly how well organised Bomber Command was to exploit the rapidly evolving new science and technology of new type of warfare How much did the concept of Allied and German morale influenced the Commands operational plans What was the influence of the Research and Experiments Dept of the Ministry of Home Security and of university scientists such as Tizard and Cherwell This book delves into the research into high explosives and firebombing techniques newly designed bombs and their devastating effect on the enemy Why in the early war days was the RAF bombers armament so ineffective the navigation so imprecise and the bombing accuracy so poor This book also discusses the many varying moral issues that even to this day still rage between those who feel guilt for the destruction of so many German cities and those who see moral justification in the eventual Allied victory *Eyewitness RAF* James Goulty, 2020-12-14 A detailed realistic picture of what it was like to serve in the Royal Air Force during WWII both on the ground and in the air using firsthand accounts Much has been written about the Royal Air Force during the Second World War memoirs biographies histories of Fighter and Bomber commands technical studies of the aircraft accounts of individual operations and exploits but few books have attempted to take the reader on a journey through basic training and active service as air or ground crew and eventual demobilization at the end of the war That is the aim of James Goulty's *Eyewitness RAF* Using a vivid selection of testimony from men and women he offers a direct insight into every aspect of wartime life in the service Throughout the book the emphasis is on the individual's experience of the RAF the preparations for flying flying itself the daily routines of an air base time on leave and the issues of discipline morale and motivation A particularly graphic section describes in the words of the men themselves what it felt like to go on operations and the impact of casualties airmen who were killed injured or taken prisoner What emerges is a fascinatingly varied inside view of the RAF that is perhaps less heroic and glamorous than the image created by some postwar accounts but gives readers today a much more realistic appreciation of the whole gamut of life in the RAF seventy plus years ago **World War II at Sea** Myron J. Smith, 1990-02

Enemy at the Gates Justo Miranda, 2019-12-08 When the Nazis started to threaten the world with their efficient machine of propaganda the main concern of European governments was the overwhelming reaction of panic that the expected bombing of the Luftwaffe might cause within the civil population During the Munich Agreement in 1938 the democracies were defended by old biplanes and a bunch of modern fighters 50 Hurricanes 20 Morane 405 and 5 Fokker D XXI France and Great Britain took up the production of USA airplanes and cancelled exports to small countries which were forced to design and build their own PANIC FIGHTERS with the intelligence and skill that desperation provides When nothing seemed able to contain the German advance France Great Britain and the USSR developed several programs of emergency fighters as did Australia to face the Japanese expansion At the time the course of events switched it was the Axis powers that had to create their own PANIC FIGHTERS some of them suicidal The present book includes several last resource designs of fighters that are practically unknown and that were developed in times of tribulation by Australia Belgium
