Der Band erscheint in zweifarbiger Gestaltung mit Definitionen und Beispielen sowie mit zahlreichen Abbildungen. This comprehensive introduction presents the fundamental topics and issues of TEFL. Teaching English as a Foreign Language in 14 chapters. The English Language Fred Brengelman, 1970 *English Language Arts* Julie Gorlewski, 2018-06-12 English Language Arts offers both undergraduates and starting graduate students in education an introduction to the connections that exist between language arts and a critical orientation to education. Because language influences all aspects of education, English teachers have a unique responsibility to create opportunities for learners to cultivate literacy practices that will empower them to reach their potential. Applying critical and theoretical perspectives to teaching English language arts, this primer considers how meanings are made in intersecting spaces of learners, teachers, and texts. Julie Gorlewski shows future and current teachers how critical English language arts education can be put into practice with concrete strategies and examples in both formal and informal educational settings. With opportunities for readers to engage in deeper discussion through suggested activities, English Language Arts pedagogical features include Model Classroom Scenarios, Extension Questions, Glossary of Key Terms.

Teaching English to Speakers of Other Languages David Nunan, 2015-02-11 David Nunan's dynamic learner-centered teaching style has informed and inspired countless TESOL educators around the world. In this fresh, straightforward introduction to teaching English to

speakers of other languages he presents teaching techniques and procedures along with the underlying theory and principles. Complex theories and research studies are explained in a clear and comprehensible yet non trivial manner without trivializing them. Practical examples of how to develop teaching materials and tasks from sound principles provide rich illustrations of theoretical constructs. The content is presented through a lively variety of different textual genres including classroom vignettes showing language teaching in action, question and answer sessions and opportunities to eavesdrop on small group discussions among teachers and teachers in preparation. Readers get involved through engaging interactive pedagogical features and opportunities for reflection and personal application. Each chapter follows the same format so that readers know what to expect as they work through the text. Key terms are defined in a Glossary at the end of the book. David Nunan's own reflections and commentaries throughout enrich the direct up close style of the text. **Uni-Wissen**
