A World of Paper John C. Rule, Ben S. Trotter, 2014-06-01 Historians and social scientists have long identified bureaucracy as the modern state s foundation and the reign of France s Louis XIV as a model for its development A World of Paper offers a fresh interpretation of bureaucracy through a close examination of the department of the Sun King s last foreign secretary Jean Baptiste Colbert de Torcy Torcy who served as foreign secretary from 1696 1715 is widely regarded as one of the most brilliant foreign ministers of the ancien regime Building on the work of his predecessors he fashioned a skilled team of collaborators as he managed the complex issues of war and peace during the turbulent final decades of Louis XIV s reign John Rule and Ben Trotter examine Torcy s department to depict administrative structures as they emerged through the circulating stream of paper that connected his office with provincial administrators and diplomats abroad They explore the collection and centralization of information during Torcy s tenure through the

creation of a modern state archive discreet intelligence gathering and the surveillance and management of the French mails They also study the postal carriers couriers household officers of the royal court genealogists hired for research and an informal brain trust of experts and advisors who carried vital information in and out of the department every day A remarkable reconstruction of the department of Jean Baptiste Colbert de Torcy A World of Paper demystifies bureaucracy and explores the ways in which the modern information state developed from his labours *The Politics of English Elementary School Finance, 1833-1870* Norman Morris, 2003 A specialized examination not of the history of elementary schools in the mid 19th century but of the technology of their revenue and the ways in which operational development was influenced by the sources and methodology of receipts The Life and Times of Edward McHugh (1853-1915), Land Reformer, Trade Unionist, and Labour Activist Andrew G. Newby, 2005 Edward McHugh 1853 1915 spent a great deal of his lifetime engaged in the struggle for social reform not only in Great Britain and Ireland but also further afield including spells in America and the Antipodes Born in rural County Tyrone to a smallholding family before emigrating through economic necessity to the overcrowded industrial landscape of Greenock and then Glasgow McHugh shared with his friend Michael Davitt experience of both sides of the land question It is not surprising that having witnessed rural and urban poverty at an early age McHugh would become firmly committed to the ideals of Henry George and convinced that land and its inequitable distribution should lie at the root of all social ills After moving to Glasgow as a teenager to find work as a compositor McHugh found himself in a city with various possibilities for developing his education as a social reformer The Irish who had fled to the city in such numbers after the Great Famine were finally starting to organise themselves politically Highlands as a result either of the Clearances or the region's own famine in the 1840s were contemplating the conditions in which the working classes of Glasgow and other towns in Scotland were forced to live As a member of the Glasgow Home Rule Association and then the secretary of the Glasgow branch of the Irish Land League McHugh was singled out as a speaker and organiser of ability and was chosen to lead a Land League mission to the Scottish Highlands in order to direct the nascent crofters agitation along radical lines After the death of the Land League McHugh toured Scotland with Henry George himself and helped to found the Scottish Land Restoration League a body dedicated to taxing land values to their full extent thereby abolishing landlordism The ability shown by McHugh was then harnessed by the Trades Union movement as he and his old friend Richard McGhee formed and ran the National Union of Dock Labourers sustaining them through bitter strikes in Glasgow 1889 and Liverpool 1890 This latter strike was a turning point in McHugh's domestic life as he settled then in Birkenhead McHugh remained active in the Trade Unionism spending the years 1896 1899 in New York organising the American Longshoremen's Union and preaching the Single Tax Gospel The fact that McHugh was with Henry George at the time of the latter's untimely death in 1897 gave the Ulsterman a great cache in Single Tax circles for the rest of his life and on returning to Birkenhead he settled down and spent the rest of his life striving for social reform through the propagation of

the George s theories Statesmen, Diplomats, and the Press-essays on 18th Century Britain Karl W. Schweizer,2002 The eleven essays in this volume entail three broad themes first the dynamics of national policy making during the Hanoverian period secondly the role of diplomats in the formulation as well as execution of foreign policy thirdly the political impact of the press Cabinets regularly led by dukes who engaged in arcane maneuvers such as forcing the Closet spread a musty scent of the antique over eighteenth century politics Yet the era was also the forcing ground of modern society and no period in British history now has so exciting or controversial a historiography Globalization industrialization the rise of nationalism imperialism the emergence of a free press and numerous other vital themes reverberate among what was once seen as a time veiled in cobwebs Karl Schweizer s essays illuminate a number of the most important issues currently under scrutiny by historians Many of his pieces are focused around the crucial decades of the mid century when the monarchy parliamentary government the shaping of public opinion the conduct of war and diplomacy were all being tested and reshaped Not only does his work illuminate these problems in new ways but also his masterly **The Significance of Gardening in British India** Charles Carlton,Caroline Carlton,2004 This book is a multi faceted study of the role of gardening in British India with several accompanying illustrations it is a study of imperial history environmental history cultural history and women s history First as a study in imperial history that shows how the British used landscape architecture to convey images of power to both themselves and the Indians Second as a study in environmental history this book traces the way in which the British established a whole series of Botanical gardens centered at Kew in London Tea and cinchona an antidote for malaria were imported to be grown in India while opium was forcibly exported to China Without cinchona imperialism would have been medically impossible and without tea or opium imperialism would have not been immensely profitable Third this is a study in cultural history exploring how the British tried to modify India by creating their own cultural retreat the hill station Finally this book deals with women s history Gardening became a means by which English women occupied themselves creating a little England to alleviate the intense homesickness *Report on the Manuscripts of Allen George Finch, Esq* Great Britain.
