Robinson,1973 The Enlightenment and the Intellectual Foundations of Modern Culture Louis Dupre,2008-10-01 The prestige of the Enlightenment has declined in recent years Many consider its thinking abstract its art and poetry uninspiring and the assertion that it introduced a new age of freedom and progress after centuries of darkness and superstition presumptuous In this book an eminent scholar of modern culture shows that the Enlightenment was a more complex phenomenon than most of its detractors and advocates assume It includes rationalist as well as antirationalist tendencies a critique of traditional morality and religion as well as an attempt to establish them on new foundations even the beginning of a moral renewal and a spiritual revival The Enlightenment s critique of tradition was a necessary consequence of the fundamental modern principle that we humans are solely responsible for the course of history Hence we can accept no belief no authority no institutions that are not in some way justified This foundation for better or for worse determined the course of the following centuries Despite contemporary reactions against it the Enlightenment continues to shape our own time and still distinguishes Western culture from any other **The Sciences in Enlightened Europe** William Clark,Jan Golinski,Simon Schaffer,1999-07 Radically reorienting our understanding of the Enlightenment this book explores the complex relations between enlightened values and the making of scientific knowledge Here monsters and automata barometers and botanical gardens polite academics and boisterous clubs plans for violent wars and for universal peace are all relocated in the landscape of enlightened Europe The contributors show how changing forms of discipline machinery and instrumentation affected the emergence of new kinds of knowledge consider how institutions of public rate taste and conversation helped provide a common frame for the study of human and nonhuman natures and explore the regional operations of scientific culture at the geographical fringes of Europe Covering a wide range of scientific disciplines both in the principal European countries and in areas peripheral to Europe the book also includes ample illustrations and an extensive bibliography Implicated in the rise of both fascism and liberal secularism the moral and political values that shaped the Enlightenment remain controversial today Through careful scrutiny of how these values influenced and were influenced by the concrete practices of its sciences this book gives us an entirely new sense of the Enlightenment from back cover Re-Enchanting the Earth Delio, Ilia ,2020-09-16 Artificial Intelligence AI the new frontier of human evolution holds the promise of reuniting religion and science **Novel Machines** Joseph Drury,2017 *Novel Machines* explores the ideas of technological modernity and the machinery of narrative fiction in the eighteenth century British novel Machines as Agency Christoph Lischka,Andrea Sick,2015-07-15 This book supports and deepens the

existing interfaces between art science and technology transgressing traditional principles and styles of research and selectively overcoming the side by side coexistence in favour of an integrated laboratory of the future Instead of relying on traditional dualisms like nature culture subject object as well as man and machine heterogeneous networks with humans and non humans Latour are opened in shared contexts of agency New momentary propositions are developed meeting the complexity of discovering exploring and inventing things things which do not exist just as given beings The artists and theoreticians can pursue using the tools and techniques of science actively not only to comment them but also to fathom their possibilities and employ them in their artistic and scientific projects Machines as Agency is an artistic perspective The Enlightenment that Failed Jonathan Israel,2019 Radical and conservative Enlightenment ideologies began to break apart as the desire for a fair society clashed with questions of religion and secularization The Enlightenment that Failed shows how ideas promoting the interest of society as a whole came to be almost defeated by ideas buttressing the interests of the privileged few **Science and Humanism in the French Enlightenment** Aram Vartanian,1999 Vartanian 1922 97 offered this set of three essays to the series editors just before he died and had no opportunity to write a general introduction explaining the direction they take However they were deemed to be a major contribution to the study of the French Enlightenment and are presented as
