The Enterprise Of War Time Frame:

Enterprise in the Period of Fascism in Europe Harold James, Jakob Tanner, 2017-07-05 The essays in this volume consider the involvement of business corporations and of individual businessmen in the politics of the 1930s and 1940s in the move away from the market and also from democracy towards state control and authoritarianism including the massive intervention of the state in property rights How far did businesses attempt to guide this intervention for their own purposes and to what extent did they succeed This debate deals centrally with the role of German business of banks of industrial corporations and of small tradesmen in the Nazi regime An older discussion of how they may have facilitated the Nazi takeover has been supplemented here by an investigation into how they made the regime s policies possible and the extent to which the profit motive drove them to participate with sometimes more sometimes less enthusiasm in the politics of inhumanity Such discussion has been given further impetus by legal action initially in the United States in the form of class action suits on behalf of the victims of Nazism What do such legal and political debates mean for business history What are the current responsibilities of business facing the consequences of historical action And what lessons should be learned concerning the ethics of business behaviour The contributions to this volume were originally presented as papers at a conference organised by the Society for European Business History in Paris in November 1998 **The wartime military**

government period, 1942-1945 United States. Office of the Chief of Naval Operations, Dorothy Elizabeth Richard, 1957

Wartime Family Living ,1954 *The Charge of the Light Brigade* Robert Powysynski, Sr., 2011-09 Business Expansion and Structural Change in Pre-War China Kai Yiu Chan, 2006-11-01 This book examines the relationship between business expansion and the structure of business in pre war China through a careful and pioneering study of the enterprises of Liu Hongsheng during the 1920s and 1930s Unlike previous studies that have concentrated on such conceptual discussions as networks and the role of the state in Chinese economic and business history this present work focuses on the institutional changes within Chinese business to critically delineate the major institutions in the working of Chinese owned enterprises Not only does it explore those institutions of Western origin such as the company and modern banking but also those of native tradition Liu Hongsheng was one of the leaders of the Chinese business community in Shanghai from the 1910s to the early 1950s Through the examination utilizing a large number of previous unused archival materials of the major lines of his businesses including coal distribution wharf operations cement making match manufacturing banking and real estate this study identifies the major institutional changes involved in the course of the expansion of the whole business before the outbreak of the Second Sino Japanese War In particular the author argues that the accounts office or zhangfang was the core of the organization This book will be of great interest to specialists and students of Chinese business and economic history It also provides a base for comparative business and economic history especially for those who are interested in comparing European and American businesses with the Chinese ones Lastly this book serves the interest of

scholars and students of East Asian history who will find in Liu's story a substantial example of the creative institutional dimension of business in the Chinese diaspora Professor Chan has richly documented the fascinating business practices used by the Chinese capitalist Liu Hongsheng his devious maneuvers as a comprador taking actions contrary to the wishes of his foreign employer his jousting as chairman of the board with unruly Chinese shareholders in a limited liability company his inventive accounting as a venture capitalist financing industrial enterprises With a firm command of archival materials Chan is able to reveal seldom seen inner workings of Chinese business Sherman Cochran Hu Shih Professor of Chinese History Cornell University

The Japanese Enterprise System W. Mark Fruin, 1992 This volume merges four streams of inquiry and interpretation in a study of the evolution and emergence of Japan's leading industrial firms during the twentieth century First it is a historical study of how the industrial institutions of modern Japan appeared and matured Second it is an organization study of the basic forms of social and economic interaction in Japan Third it is a development study of how circumstances of rapid technical and economic change have shaped the Japanese business system It is also a strategy study of how Japanese managers have responded to and shaped these circumstances This fourfold synthesis offers a model of institutional development under conditions of late economic development and private initiative that falls somewhere between a capitalist development state and a free market economy Business policy rather than industrial policy is accentuated revealing a set of robust institutions and a dynamic to activate and interrelate them
