The Essentials Of Lenin Vol I:

The essentials of Lenin in 2 volumes Vladimir I. Lenin, 1947 *Socialism, Social Ownership and Social Justice* Leslie J. Macfarlane, 2016-07-27 Socialism Social Ownership and Social Justice is concerned with the emergence in Europe over the centuries of dreams and aspirations amongst the poor and weak for new societies of justice and equality based on common ownership and common sharing It ranges from the Greek legendary ideal of a simple communal golden age of equals and the dark reality of Spartan perverted communalism to the collapse of Soviet communism and the abandonment by West European socialist parties of their commitment to transform ruling class dominated capitalist societies into democratic egalitarian socialist societies *Selected Works. the Essentials of Lenin in Two Volumes. Volume 1* Vladimir I. Lenin, 1947

The Nation in the History of Marxian Thought Charles C. Herod, 2012-12-06 This study is based upon the concept of nations with history and nations without history which was advanced in 1848 1849 in the pages of the *Neue Rheinische Zeitung* a Cologne based German newspaper under the editorship of Karl Marx This theory is presented in this study as a model of opposites historic nations and non historic nations respectively revolutionary nations and counter revolutionary national groups which Engels and Marx associated with the philosophy of Hegel As Marx and Engels saw it Hegel had taught that nature and history abounded in opposites and this was believed to be the essence of his dialectic Marx liked this dialectic better than anything else in Hegel's thought and modified it to fit his own economic theory of history In reality however there are no categories of opposites certainly not in nature no two colors are opposites nor are any two times of the day indeed nothing temporal nothing living nothing that is in process of becoming It is only in human understanding that opposites are introduced In the history of ideas what has been a misunderstanding of Hegel's teachings has exerted a greater influence upon subsequent generations than Hegel's philosophy as he himself understood it With Marx's development of the materialistic concept of history the *Volksgeist* Spirit of the Age so pronounced in Hegel's work lost ground rapidly first because it was difficult to understand and second because its mastery was hardly rewarding to anyone save scholars and philosophers **The Essentials of Lenin** Vladimir I. Fundamentals of Political Economy Xiaohu (Shawn) Wang, George Chung Wang, 2017-10-03 This title was first published in 1977 Fundamentals of Political Economy is a popular introductory economics text published in the People's Republic of China in 1974 as a part of the Youth Self Education series designed particularly for individual or group study The primary purpose of this series according to the preface is to elevate the cultural level of the youths going down to the

countryside to advance their knowledge of the social and natural sciences as well as to arouse their class consciousness It was originally published in two volumes The first volume 11 chapters is a critical review of the historical development of capitalism The second volume 12 chapters deals with Marxist economic principles and the manner in which they are applied in China **The Statesman's Year-Book** S. Steinberg,2016-12-27 The classic reference work that provides annually updated information on the countries of the world **European Socialism, Volume II** Carl Landauer,2023-11-15 European Socialism covers the transformative development of socialism in Europe exploring the intellectual social and political evolution of the movement from its inception through to the early 20th century The narrative seeks to provide a comparative analysis of the movements in major continental countries while acknowledging that an all encompassing history of socialism in Europe would be an impossible task The author notes the difficulty of incorporating all the various movements across the continent especially given the extensive ideological interconnections and the influence of each country s socialist experience on others For practical reasons the book focuses on the more influential European nations with a particular emphasis on Germany France Russia and several smaller nations such as Belgium and Denmark but excludes Great Britain due to the extensive existing literature on British socialism This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1959
